*The Chartered Financial Analyst® (CFA) charter is a globally recognized designation offered by the CFA Institute to investment professionals who have completed the CFA® Program and work experience requirements. To qualify for the CFA Program, candidates must have a bachelor's (or equivalent) degree or 4,000 hours of professional work experience and/or higher education. To earn the CFA charter, candidates must, within three years, pass three exams, complete 4,000 hours of professional work experience in the investment decision-making process, and join the CFA Institute as a regular member. CFA charterholders are required to adhere to the CFA Institute's code of ethics and professional conduct standards.

†The Fundamentals of Sustainability Accounting (FSA) Credential is offered by the Sustainability Accounting Standards Board (SASB) and is designed to equip professionals with the knowledge and skills to understand the link between financially material sustainability information and a company's ability to drive enterprise value. The FSA Credential combines two exams to assess professional expertise in the materiality of sustainability information for corporate performance and investment analysis. Each exam requires an average of 30-50 hours of study.

††The Chartered Alternative Investment Analyst (CAIA) Charter is a globally recognized designation offered by the CAIA Association to establish an educational standard for individuals that specialize in the area of alternative investments (such as hedge funds, venture capital, private equity, and real estate investment). To earn the charter, candidates must have a U.S. bachelor's degree and at least one year of professional experience in the finance industry, or four years of professional experience in the financial industry, and must pass two exams that include topics ranging from qualitative analysis, trading theories of alternative investments, to indexation and benchmarking.
