Significant changes in state of affairs

The Funds changed their names from Ventura Growth 90 Fund and Ventura High Growth 100 Fund to Russell Investments Ventura Growth 90 Fund and Russell Investments Ventura High Growth 100 Fund respectively, effective 13 July 2022.

Russell Investment Management Ltd. took over the role of Responsible Entity for the Funds on 13 July 2022 from Equity Trustees Limited under an agreement between Russell Investment Management Ltd. and Equity Trustees Limited.

State Street Australia Ltd was appointed Custodian and Administrator of the Funds effective 29 August 2022, replacing NAB Asset Servicing.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Funds in future financial years.

Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund and in accordance with the provisions of the Funds' constitution.

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Funds and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Funds.

Indemnity and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the Funds in regards to insurance cover provided to either the officers of Russell Investment Management Ltd. or the auditors of the Funds. So long as the officers of Russell Investment Management Ltd. act in accordance with the Funds' constitution and the Law, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds. The auditors of the Funds are in no way indemnified out of the assets of the Funds.

Directors' report (continued)

1 General information

These financial statements cover the below Funds (the "Funds") as individual entities. The Funds are Australian registered managed investment schemes which were constituted on the dates in the below table and will terminate on 7 April 2089 for Russell Investments Ventura Growth 90 Fund (formerly known as Ventura Growth 90 Fund) and 1 December 2087 for Russell Investments Ventura High Growth 100 Fund (formerly known as Ventura High Growth 100 Fund) unless terminated earlier in accordance with the provisions of the Funds' constitution.

Russell Investments Ventura Growth 90 Fund (formerly known as Ventura Growth 90 Fund)	7 April 2009
Russell Investments Ventura High Growth 100 Fund (formerly known as Ventura High Growth 100 Fund)	1 December 2007

Russell Investment Management Ltd. took over the role of Responsible Entity for the Funds on 13 July 2022 from Equity Trustees Limited under an agreement between Russell Investment Management Ltd. and Equity Trustees Limited.

The Funds changed their names from Ventura Growth 90 Fund and Ventura High Growth 100 Fund to Russell Investments Ventura Growth 90 Fund and Russell Investments Ventura High Growth 100 Fund respectively, effective 13 July 2022.

The Responsible Entity of the Funds as of 30 June 2022 was Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975). The registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000.

The Responsible Entity of the Funds is Russell Investment Management Ltd. (the "Responsible Entity"). The Responsible Entity's registered office is Level 28, 85 Castlereagh Street, Sydney, NSW 2000. The financial statements are presented in the Australian currency.

The Funds invest in unlisted managed investment schemes in accordance with the product disclosure statement and the provisions of the Funds' constitution.

The financial statements were authorised for issue by the directors of the Responsible Entity on 22 September 2023. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Funds are for-profit funds for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statements of financial position are presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and liabilities and net assets attributable to unitholders.

The Funds manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within twelve months, however, an estimate of that amount cannot be determined as at reporting date.

Multi-fund booklet

The relief available in Australian Securities and Investments Commission Corporations (Related Scheme Reports) Instrument 2015/839 has been applied in the directors' report and the financial report, combining information related to multiple Funds. In accordance with that, information related to each included Fund has been readily identified and amounts for each included Fund are presented in the adjacent columns in this report.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Funds also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

New and amended accounting standards adopted by the Funds

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

New accounting standards, amendments and interpretations effective after 1 July 2023 and have not been early adopted

A number of new accounting standards, amendments to standards and interpretations have been published that are effective for annual periods beginning after 1 July 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Funds in the current or future reporting periods and on foreseeable future transactions.

(b) Financial assets and liabilities at fair value through profit or loss

(i) Classification

Assets

The Funds classify their investments based on their business model for managing those financial assets and the contractual cash flow characteristics.

The Funds' portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Funds' documented investment strategy. The Funds' policy is for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For equity securities, unit trusts and derivatives, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, the debt securities are measured at fair value through profit or loss.

(ii) Recognition and derecognition

The Funds recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Funds measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statements of comprehensive income.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of financial assets or liabilities at fair value through profit or loss category are presented in the statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

2 Summary of significant accounting policies (continued)

(b) Financial assets and liabilities at fair value through profit or loss (continued)

(iii) Measurement (continued)

For further details on how the fair values of financial instruments are determined see note 4 to the financial statements.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. There was no significant offsetting in the Funds.

(c) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

The units can be put back to the Funds at any time for cash or in specie based on the redemption price, which is equal to a proportionate share of the Funds' net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Funds. This amount represents the expected cash flows on redemption of these units.

Under AASB 132 *Financial Instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Funds classify the net assets attributable to unitholders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Funds' liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Funds, and it is not a contract settled in the Funds' own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

Effective from 1 July 2021, Russell Investments Ventura High Growth 100 Fund's units have been reclassified from financial liability to equity as they satisfy all the above criteria.

(d) Cash and cash equivalents

For the purpose of presentation in the statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Funds' main income generating activity.

(e) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

2 Summary of significant accounting policies (continued)

(e) Investment income (continued)

Dividend and distribution income from financial assets at fair value through profit or loss is recognised in the statements of comprehensive income within distribution income when the Funds' right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in note 2(b) to the financial statements.

(f) Expenses

All expenses, including Responsible Entity's fees, management fees and custodian fees, are recognised in the statements of comprehensive income on an accruals basis. The Responsible Entity is entitled under the Funds' constitution to be reimbursed for certain expenses incurred in administering the Funds.

(g) Income tax

Under current legislation, the Funds are not subject to income tax provided they attribute the entirety of their taxable income to their unitholders.

In the event that the Funds incur withholding taxes imposed by certain countries on investment income and capital gains, such income or gains are recorded gross of withholding taxes in the statements of comprehensive income. Withholding taxes are included in the statements of comprehensive income within other operating expenses.

(h) Distributions to unitholders

Distributions are payable as set out in the Funds' product disclosure statement and/or Funds' constitution. Such distributions are recognised as payable when they are determined by the Responsible Entity of the Funds.

(i) Foreign currency translation

(i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian Dollar, which reflects the currency of the economy in which the Funds compete for Funds and is regulated. The Australian Dollar is also the Funds' presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statements of comprehensive income in net foreign exchange gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the statements of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

(j) Balances due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

2 Summary of significant accounting policies (continued)

(k) Receivables

Receivables may include amounts for accrued interest and unit trust distributions. Dividends and unit trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in note 2(e) above. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(l) Payables

Payables include liabilities and accrued expenses owed by the Funds which are unpaid as at the end of the reporting period.

(m) Applications and redemptions

Applications received for units in the Funds are recorded net of any entry fees payable prior to the issue of units in the Funds. Redemptions from the Funds are recorded gross of any exit fees payable after the cancellation of units redeemed.

(n) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as custodial services and investment management fees have been passed onto the Funds. The Funds qualify for Reduced Input Tax Credits (RITC) at a rate of at least 55% or 75%; hence investment management fees, custodial fees and other expenses have been recognised in the statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statements of financial position. Cash flows relating to GST are included in the statements of cash flows on a gross basis.

(o) Use of estimates

The Funds make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For financial instruments which are quoted, market prices are adopted in their valuation. However, certain financial instruments are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the area that created them.

2 Summary of significant accounting policies (continued)

(o) Use of estimates (continued)

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For more information on credit risk and how fair value is calculated see note 3 and note 4 to the financial statements.

(p) Rounding of amounts

Amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with *Australian Securities & Investments Commission ("ASIC") Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, unless otherwise indicated.

(q) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3 Financial risk management

The Funds' activities expose them to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk.

The Funds' overall risk management process focuses on ensuring compliance with the Funds' product disclosure statement. They also seek to maximise the returns derived for the level of risk to which the Funds are exposed and seek to minimise potential adverse effects on the Funds' financial performance. The Fund's policy allows it to use derivative financial instruments to both moderate and create certain risk exposures.

All securities investments present a risk of loss of capital. The maximum loss of capital on investments is limited to the fair value of those positions. The maximum loss of capital on long futures and forward currency contracts is limited to the notional contract values of those positions.

The investments of the Funds, and associated risks, are managed by a specialist investment manager, Ventura Investment Management Ltd ("Ventura"), under an Investment Management Agreement (the "IMA") approved by the Responsible Entity, and containing the investment strategy and guidelines of the Funds, consistent with those stated in the product disclosure statement. Ventura has appointed a sub-investment manager, Russell Investment Management Ltd., under a Sub-Investment Management Agreement (sub IMA).

The financial risk disclosure below has been prepared on the basis of the Funds' direct investment and not on a look-through basis. The Funds use different methods to measure different types of risk to which they are exposed. These methods are explained below.

(a) Market risk

(i) Price risk

The Funds are exposed to price risk on investments in managed investment schemes. Price risk arises from investments held by the Funds for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

Price risk is managed by the sub-investment manager. The Funds' sub-investment manager mitigates price risk through diversification and a careful selection of securities and other financial instruments in accordance with the investment mandate of the Funds.

3 Financial risk management (continued)

(a) Market risk (continued)

(i) Price risk (continued)

The Funds' overall market positions are monitored on a regular basis by the Funds' sub-investment manager. This information and the compliance with the Funds' product disclosure statement are reported to the investment manager's compliance manager and other key management personnel.

The table on page 16 summarises the impact of an increase/decrease on the Funds' net assets attributable to unitholders at 30 June 2023. The analysis is based on the assumptions that the underlying investments increased/decreased by +/-12% to 13% (2022: +/-13% to 15%) with all other variables held constant. The impact mainly arises from the possible change in the fair value of listed equities, unit trusts and equity derivatives.

(ii) Foreign exchange risk

The Funds hold both monetary and non-monetary assets denominated in Australian Dollar. The foreign exchange risk relating to non-monetary assets and liabilities is a component of price risk. Therefore, the Funds are not directly subject to significant risk due to fluctuations in the prevailing levels of foreign exchange rates.

(iii) Cash flow and fair value interest rate risk

The majority of the Funds' financial assets and liabilities are non-interest bearing or have a very short time to maturity. As a result, the Funds are not subject to significant risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at short term market interest rates.

(b) Summarised sensitivity analysis

The following tables summarize the sensitivity of the Funds' operating profit and net assets attributable to unitholders to price risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical correlation of the Funds' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Funds invest. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

	\$'000	\$'000
30 June 2023	(2,904)	2,904
30 June 2022	(2,870)	2,870

The sensitivity factors of Russell Investments Ventura High Growth 100 Fund for 30 June 2022 were +/-15% for price risk.

Some limitations of the sensitivity analysis above are:

1. The models are based on historical data and cannot take account of the fact that future market movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
2. The market risk information is a relative estimate of risk rather than a precise and accurate number; and
3. The market information represents a hypothetical outcome and is not intended to be predictive; and future market conditions could vary significantly from those experienced in the past.

(c) Credit risk

The Funds are exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due, causing a financial loss to the Funds. Credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions, receivables and amounts due from brokers. None of the assets are impaired nor past due but not impaired.

The Funds do not have material direct exposure to credit risk as it invests in underlying funds. These underlying funds are exposed to credit risk from counterparties with whom they trade and will also bear the risk of settlement default. The underlying funds' credit risk concentration arises from investments in debt securities, broker balances and derivative instruments, in addition to cash balances held at the custodian. The underlying funds minimise concentrations of credit risk by undertaking transactions with approved counterparties, investing primarily in investments on recognised and reputable exchanges. Periodic monitoring is performed on the external managers by Russell Investments to ensure compliance with investment management agreements.

The Funds' direct credit risk arises from bank balances which are held by the Funds' custodian, State Street Australia Limited and State Street Bank and Trust Company. At the balance date the exposure to credit risk for cash and cash equivalents and amounts due from brokers is considered low as all counterparties of the Funds have a rating of investment grade or higher (as determined by external credit rating agencies). The maximum exposure to credit risk at the reporting date is the carrying amount of these financial assets.

Clearing and depository operations for the Funds' security transactions are mainly concentrated with one counterparty, namely State Street Australia Limited. Periodic monitoring is performed on the custodian by Russell Investments to ensure compliance with custodial agreements.

At 30 June 2023, State Street Australia Limited had a credit rating of Aa1 (2022: Aa1). At 30 June 2023, substantially all cash and investments are held in custody by State Street Australia Limited or through a sub-custodian.

3 Financial risk management (continued)

(d) Liquidity risk

Liquidity risk is the risk that the Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Funds are exposed to daily cash redemptions of redeemable units which Russell Investments manage by ensuring that, each underlying fund's investment managers comply with investment management agreements which directs the amount of illiquid assets held in each fund. In addition, Russell Investment Management Ltd. monitors the Funds' liquidity position on a daily basis.

Generally the underlying funds' assets are composed of actively traded and highly liquid securities. However, these funds may restrict redemptions in the event of liquidity concerns or volatile markets. In such event, the Funds may also restrict redemptions on a temporary basis in line with the provisions of the Funds' governing documents to manage liquidity risk.

(i) Maturities of non-derivative financial liabilities

The tables below analyse the Funds' non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts in the table are contractual undiscounted cash flows.

4 Fair value measurement

The Funds measure and recognise the following assets at fair value on a recurring basis:

- Financial assets at fair value through profit or loss (FVTPL) (see note 5)

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); or
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Funds value their investments in accordance with the accounting policies set out in note 2 to the financial statements.

(i) Fair value in an active market (level 1)

The Funds value its investments in accordance with the accounting policies set out in note 2. For the majority of their investments, the Funds rely on information provided by independent pricing services for the valuation of its investments.

The quoted market prices used for both financial assets and financial liabilities were last traded prices.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not traded in an active market are determined by using prices from underlying unlisted investment trusts.

Recognised fair value measurements

The following table presents the Funds' financial assets measured and recognised at fair value through profit or loss across the fair value hierarchy.

Total	-	19,135	-	19,135

The Funds' policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

There were no transfers between levels for the year ended 30 June 2023 and year ended 30 June 2022. There were also no changes made to any of the valuation techniques applied as of 30 June 2023.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The Funds did not hold any financial instruments with fair value measurements using significant unobservable inputs during the year ended 30 June 2023 or year ended 30 June 2022.

(iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

(iv) Fair values of other financial instruments

The Funds have assets and liabilities carried at amortised cost. Due to their short-term nature, their carrying values are a reasonable approximation of fair value.

6 Structured entities

A structured entity is an entity in which voting or similar rights are not the dominant factor in deciding control. Structured entities are generally created to achieve a narrow and well defined objective with restrictions around their ongoing activities. Depending on the Funds' power over the activities of the entity and its exposure to and ability to influence its own returns, it may control the entity. However, the Funds apply the Investment Entity Exception available under AASB 10 *Consolidated Financial Statements* and therefore do not consolidate their controlled entities. In other cases, it may have exposure to such an entity but not control it.

An interest in a structured entity is any form of contractual or non-contractual involvement which creates variability in returns arising from the performance of the entity for the Funds. Such interests include holdings of units in unlisted trusts.

The nature and extent of the Funds' interests in related structured entities are summarised in notes 5 and 12.

6 Structured entities (continued)

The nature and extent of the Funds' investments in unrelated investment funds are disclosed in the following table:

	Fair value of investment		Interest held	
	2023	2022	2023	2022
	\$'000	\$'000	%	%
Russell Investments Ventura Growth 90 Fund

Russell Investments High Growth Fund	-*	19,135	-	13.84

* Due to the change of Responsible Entity from Equity Trustees Limited to Russell Investment Management Ltd. the underlying investment funds are now disclosed under note 12.

During the year ended 30 June 2022, the Funds' total net gains/(losses) incurred on investments in the structured entities and the distribution income from investments in structured entities were as follows:

	Total gains/(losses)		Distribution income	
	Year ended		Year ended	
	30 June 2023	30 June 2022	30 June 2023	30 June 2022

Russell Investments Ventura High Growth 100 Fund	-	(4,629,756)	-	2,346,583

The Funds have exposures to unconsolidated structured entities through its investment activities. The Funds' maximum exposure to loss is restricted to the carrying value of the asset.

The Funds' overall risk management program focuses on ensuring compliance with its governing documents and seeks to maximise the returns derived for the level of risk to which the Funds are exposed. The risks associated with the investments are referred to in note 3.

During the year the Funds did not provide financial support to unconsolidated structured entities and has no intention of providing financial or other support. The Funds' investment strategy entails investments in other funds on a regular basis. The Funds intend to continue investing in other funds.

As at 30 June 2023, there were no capital commitment obligations other than what is in unsettled sales or unsettled purchases in Statement of financial position (2022: \$Nil).

7 Net assets attributable to unitholders

As stipulated within the Funds' constitution, each unit represents a right to an individual share in the Funds and does not extend to a right to the underlying assets of the Funds.

There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Funds.

Capital risk management

Management considers their net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds' underlying assets on a daily basis by the Responsible Entity. Under the terms of the Funds' constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders. The Funds did not restrict or reject any redemptions in the financial year.

8 Distributions to unitholders

Responsible Entity

Russell Investment Management Ltd. (ABN 53 068 338 974), the Responsible Entity and manager of the Funds, is a wholly owned subsidiary of Russell Investment Group Pty Ltd (Australia). Russell Investment Management Ltd replaces Equity Trustees Limited as the Responsible Entity (RE) on and from 13 July 2022.

The Responsible Entity is engaged in the business of providing investment management and administrative services on behalf of the Funds. It has appointed State Street Australia Limited to perform custody and certain administrative functions. To implement the multi-asset, multi-style, multi-manager diversification technique in relation to the Funds, the Responsible Entity will: (i) engage and, where necessary, replace the investment managers for the Fund; (ii) allocate assets among investment managers within the Fund; and (iii) monitor each investment manager's overall investment performance. For services rendered, the Funds pay the Responsible Entity a fee as discussed below.

The Responsible Entity retains the right under the terms of its agreements with the investment managers to direct them, subject to a requirement of best execution, to execute transactions that enable it to purchase brokerage and research services that assist in the provision of investment services to the Responsible Entity and are in the best interests of the unitholders. In addition, the investment managers may elect to purchase research services for their own benefit, subject to

12 Related party transactions (continued)

the best execution requirement. Brokerage and research services include (1) fundamental market research including performance characteristics of asset classes, investment styles, and allocation strategies; (2) advice either directly or indirectly through publications or writings as to the value of securities, the advisability of investing in, purchasing or selling securities and the availability of securities or of purchasers or sellers of securities; (3) analysis and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy and the performance of accounts; and (4) effecting securities transactions and performing functions incidental thereto (such as clearance and settlement) or that are required in connection therewith.

The Responsible Entity has received the following goods and services from brokers and dealers generally over the period of these accounts:

- written and oral research reports from brokers or dealers;
- computer based financial analytical systems, together with their associated software and servicing support; and
- statistical analysis relating to markets, companies, industries, business and economic factors, market trends and portfolio strategies.

Brokerage commissions

The Funds may effect portfolio transactions through an affiliate of the Responsible Entity, when an investment manager determines that Funds will receive competitive execution, price, and commissions. No commissions were retained by affiliates of the Responsible Entity for the year ended 30 June 2023 (2022: \$Nil).

Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the Annual Report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Funds to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:
http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
