Directors' report

The directors of Russell Investment Management Ltd (ABN 53 068 338 974 AFSL No. 247185), the responsible entity of Russell Investments Australian Bond Income Fund (the "Fund"), present their report together with the financial statements of the Fund, for the year ended 30 June 2020.

Principal activities

The Fund invests predominantly in debt securities issued by Australian government, quasi-government and corporates as set out in the Fund's offer documents and in accordance with the provisions of the Fund's constitution.

The Fund utilises a multi-asset, multi-style, multi-manager investment approach which combines the individual strengths of multiple investment managers.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year or since the end of the year and up to the date of this report.

Directors

The following persons held office as directors of Russell Investment Management Ltd during the year or since the end of the year and up to the date of this report:

Peter Gunning
Jodie Hampshire
Symon Parish
Bronwyn Yates
Richard Smirl

Review and results of operations

Beginning in January 2020, the global financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as COVID-19. The outbreak of COVID-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The effects of COVID-19 and the resulting market impact have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may adversely impact the Fund's investments and performance.

Results

The performance of the Fund, as represented by the results of its operations, was as follows:

	Year ended	
	30 June 2020	30 June 2019
Operating profit/(loss) before finance costs attributable to unitholders (\$'000)	5,239	14,694
<i>Distributions</i>		
Distributions paid and payable (\$'000)	6,657	7,513
Distribution (Cents per unit - CPU)	5.53	4.98

Distribution

Distributions of income generally occur quarterly with a final annual distribution as at 30 June each year. Realised capital gains are distributed only at 30 June each year. A detailed summary of distributions to unitholders for the year can be found in note 8 of the financial statements.

Directors' report (continued)

Options

There were no options over interests in the Fund at any time during the year.

Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Fund that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Fund in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the offer documents of the Fund and in accordance with the provisions of the Fund's constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Fund and the expected results of those operations have not been included in this report because the responsible entity believes it would be likely to result in unreasonable prejudice to the Fund.

Indemnity and insurance of officers and auditors

No insurance premiums are paid for out of the assets of the Fund in regards to insurance cover provided to either the officers of Russell Investment Management Ltd or the auditors of the Fund. So long as the officers of Russell Investment Management Ltd act in accordance with the Fund's constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund. The auditors of the Fund are in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the responsible entity or its associates

Fees paid to the responsible entity and its associates out of Fund property during the year are disclosed in note 12 of the financial statements.

No fees were paid out of Fund property to the directors of the responsible entity during the year.

The number of interests in the Fund held by the responsible entity or its associates as at the end of the financial year are disclosed in note 12 of the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in note 7 of the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in note 2 of the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Directors' report (continued)

Rounding of amounts to the nearest thousand dollars

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the directors' report. Amounts in the directors' report have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated. Due to rounding, rounded components presented throughout the financial statements may not add up precisely to the rounded sum.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 5.

This report is made in accordance with a resolution of the directors.

Auditor's Independence Declaration

As lead auditor for the audit of Russell Investments Australian Bond Income Fund for the year ended 30 June 2020, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

1 General information

The financial statements cover Russell Investments Australian Bond Income Fund (the “Fund”) as an individual entity. The Fund was constituted on 30 September 2010. The Fund will terminate on 29 September 2090 unless terminated earlier in accordance with the provisions of the Fund’s constitution.

The responsible entity of the Fund is Russell Investment Management Ltd (the “responsible entity”). The responsible entity’s registered office is Level 1, 60 Martin Place, Sydney, NSW 2000. The financial statements are presented in the Australian currency.

The Fund invests predominantly in debt securities issued by Australian government, quasi-government and corporates as set out in the Fund’s offer documents and in accordance with the provisions of the Fund’s constitution.

The financial statements were authorised for issue by the directors of the responsible entity on 22 September 2020. The directors of the responsible entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all year presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit fund for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and liabilities and net assets attributable to unitholders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within twelve months, however, an estimate of that amount cannot be determined as at reporting date.

Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

New and amended accounting standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2019 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

New accounting standards, amendments and interpretations effective after 1 July 2020 and have not been early adopted

A number of new accounting standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2020, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

2 Summary of significant accounting policies (continued)

(b) Financial assets and liabilities at fair value through profit or loss

(i) Classification

Assets

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics. The Fund's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the responsible entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, the debt securities are measured at fair value through profit or loss.

(ii) Recognition and derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Fund measures financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair values of financial instruments are determined see note 4 to the financial statements.

(c) Net assets attributable to unit holders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the responsible entity if it is in the best interests of the unitholders.

The units can be put back to the Fund at any time for cash or in specie based on the redemption price, which is equal to a proportionate share of the Fund's net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at balance sheet date if the holder exercises the right to put the unit back to the Fund. This amount represents the expected cash flows on redemption of these units.

Under AASB 132 *Financial Instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Fund classifies the net assets attributable to unitholders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;

2 Summary of significant accounting policies (continued)

(c) Net assets attributable to unit holders (continued)

- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity.

(e) Deposits held with broker for margin

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

(f) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities. Interest from financial assets at fair value through profit or loss is included in net gains/(losses) on financial instruments at fair value through profit or loss.

Dividend and distribution income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within distribution income when the Fund's right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in note 2(b) to the financial statements.

(g) Expenses

All expenses, including responsible entity's fees, management fees and custodian fees, are recognised in the statement of comprehensive income on an accruals basis. The responsible entity is entitled under the Fund's constitution to be reimbursed for certain expenses incurred in administering the Fund.

(h) Income tax

Under current legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unitholders.

In the event that the Fund incurs withholding taxes imposed by certain countries on investment income and capital gains, such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included in the statement of comprehensive income within other operating expenses.

2 Summary of significant accounting policies (continued)

(i) Distributions to unitholders

Distributions are payable as set out in the Fund's product disclosure statement and/or Fund's constitution. Such distributions are recognised as payable when they are determined by the responsible entity of the Fund.

(j) Increase/(decrease) in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders.

(k) Foreign currency translation

(i) Functional and presentation currency

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian Dollar, which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian Dollar is also the Fund's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income in net foreign exchange gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the statement of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

The Fund does not isolate that portion of gains or losses on securities and derivative financial instruments that are measured at fair value through profit or loss and which are due to changes in foreign exchange rates from those that are due to changes in the market price of securities. Such fluctuations are included with the net gains or losses on financial instruments at fair value through profit or loss.

(l) Balances due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

(m) Receivables

Receivables may include amounts for accrued interest and trust distributions. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment in accordance with the policy set out in note 2(f) above. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the

2 Summary of significant accounting policies (continued)

(m) Receivables (continued)

credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(n) Payables

Payables include liabilities and accrued expenses owing by the Fund which are unpaid as at the end of the reporting period.

(o) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(p) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as custodial services and investment management fees have been passed onto the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55% or 75%; hence investment management fees, custodial fees and other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(q) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For financial instruments which are quoted, market prices are adopted in their valuation. However, certain financial instruments are fair valued using valuation techniques. Where valuation techniques (for example, pricing models) are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the responsible entity, independent of the area that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

For more information on credit risk and how fair value is calculated see note 3 and note 4 to the financial statements.

(r) Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated. Due to rounding, rounded components presented throughout the financial statements may not add up precisely to the rounded sum.

3 Financial risk management

The Fund's activities expose it to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management process focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund combines managers with varied investment styles to achieve returns in a broad range of market conditions and to manage exposure to risk through diversification.

The Fund's multi-manager process differentiates it from single-manager funds. As a manager of managers, the Fund delegates some of the management of its funds to external investment managers. The risk management process operates at a number of levels. In addition to monitoring investment activity and exposure at the point of execution by an investment manager, Russell Investment Management Ltd oversees and monitors the overall level of risk in the Fund.

(a) Market risk

(i) Price risk

Price risk arises from investments held for which prices in the future are uncertain. The majority of the Fund's directly held financial assets and liabilities are interest bearing securities which have exposure primarily relating to interest rate movement and credit risk, thus there is no significant exposure to price risk.

The Fund's investments in derivative instruments and unlisted unit trusts can be subject to market price risk arising from uncertainties about future prices of the instruments.

Where financial instruments are denominated in currencies other than the Australian Dollar, the price in the future will also fluctuate because of changes in foreign exchange rates. Paragraph (ii) 'Foreign exchange risk' below sets out details relating to this component of price risk.

The Fund also manages its exposure to price risk by analysing the investment portfolio by sector and comparing to sector weighting of the Funds Index. The table below is a summary of the significant sector concentrations within the portfolio.

Sector	30 June 2020		30 June 2019	
	Fund's portfolio %	Relative benchmark allocation %	Fund's portfolio %	Relative benchmark allocation %
Cash	6.36	-	6.49	-
Corporates	23.34	7.51	22.31	8.59
Government Related	37.10	36.55	38.86	38.28
Treasuries	28.67	53.58	29.30	51.99
Other	4.53	2.36	3.04	1.14
Total	100.00	100.00	100.00	100.00

(ii) Foreign exchange risk

The majority of the Fund's assets are interest rate securities denominated in Australian Dollar. Therefore, the Fund is not subject to significant risk due to fluctuations in the prevailing levels of foreign exchange rates.

(iii) Cash flow and fair value interest rate risk

The Fund is exposed to cash flow interest rate risk on financial instruments with variable interest rates. Financial instruments with fixed rates expose the Fund to fair value interest rate risk.

The Fund's interest bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis.

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Cash flow and fair value interest rate risk (continued)

The Fund typically invests in foreign government, semi-government, agency and corporate bonds as well as mortgage and asset backed securities. Derivatives may be employed for hedging and efficient portfolio management purposes.

The table below summarises the Fund's exposure to interest rate risks, excluding any exposure to interest rate futures. It includes the Fund's assets and liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

	Floating interest rate \$'000	Fixed interest rate \$'000	Non-interest bearing \$'000	Total \$'000

3 Financial risk management (continued)

(a) Market risk (continued)

(iii) Cash flow and fair value interest rate risk (continued)

The table below summarises the impact of an increase/decrease of interest rates on the Fund's operating profit and net assets attributable to unitholders through changes in fair value or changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/-100 basis points (2019: +/-341 basis points) from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of interest rate securities.

(b) Summarised sensitivity analysis

The following table summarises the sensitivity of the Fund's operating profit and net assets attributable to unitholders to interest rate risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates, modified duration, historical correlation of the Fund's investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Fund invests. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

	Interest rate risk Impact on operating profit/net assets attributable to unitholders	
	-100bps \$'000	+100bps \$'000
30 June 2020	(7,411)	7,411
30 June 2019	(26,490)	26,490

The sensitivity factors for 30 June 2019 were +/-341 bps for interest rate risk.

Some limitations of the sensitivity analysis above are:

1. The models are based on historical data and cannot take account of the fact that future market movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
2. The market risk information is a relative estimate of risk rather than a precise and accurate number;
3. The market information represents a hypothetical outcome and is not intended to be predictive; and future market conditions could vary significantly from those experienced in the past.

(c) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due.

Credit risk primarily arises from investments in debt securities and from trading derivative products. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions, receivables and amounts due from brokers. None of these assets are impaired nor past due but not impaired. At the end of the reporting period the exposure to credit risk for cash and cash equivalents, deposits with banks and amounts due from brokers is considered low as all counterparties of the Fund have a rating of investment grade or higher (as determined by external credit rating agencies).

3 Financial risk management (continued)

(c) Credit risk (continued)

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets. An analysis of debt securities by rating is set out in the table below.

	As at	
	30 June 2020 \$'000	30 June 2019 \$'000
Australian debt securities		
Rating		
AAA to AAA-	72,596	87,997
AA+ to AA-	32,753	38,933
A+ to A-	11,179	14,820
BBB+ to BBB-	<u>13,831</u>	<u>10,308</u>
Total	<u>130,359</u>	<u>152,058</u>

All transactions in debt securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

The clearing and depository operations for the Fund's security transactions are mainly concentrated with one counterparty, namely State Street Australia Limited. At 30 June 2020, State Street Australia Limited had a credit rating of Aa1 (2019: Aa1). At 30 June 2020, substantially all cash and investments are held in custody by State Street Australia Limited or through a sub-custodian.

(d) Liquidity risk

The Fund is exposed to daily cash redemptions of redeemable units. In addition, the Fund may restrict redemptions on a temporary basis in line with the provisions of the Fund's offering documents. The Fund did not restrict or reject any redemptions in the 2019/2020 financial year. It therefore primarily holds investments that are traded in an active market and can be readily disposed.

The Fund may invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Fund may not be able to quickly liquidate its investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer or counterparty. Refer to note 4 for the type of financial instruments held by the Fund.

The Fund delegates some of liquidity risk management to external investment managers who monitor their model liquidity positions on a regular basis. In addition, Russell Investment Management Ltd monitors the Fund's liquidity position on a daily basis.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

(i) Maturities of non-derivative financial liabilities

The table below analyses the Fund's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date. The amounts in the table are contractual undiscounted cash flows.

	Less than 1 month \$'000	1-6 months \$'000	6-12 months \$'000	Over 12 months \$'000	No stated maturity \$'000
At 30 June 2020					
Payables	200	-	-	-	-
Distributions payable	4,118	-	-	-	-
Due to brokers - payable for securities purchased	1,111	-	-	-	-
Undiscounted contractual cash flows	5,429	-	-	-	-
	Less than 1 month \$'000	1-6 months \$'000	6-12 months \$'000	Over 12 months \$'000	No stated maturity \$'000
At 30 June 2019					
Payables	93	-	-	-	-
Distributions payable	1,864	-	-	-	-
Due to brokers - payable for securities purchased	476	-	-	-	-
Undiscounted contractual cash flows	2,433	-	-	-	-

4 Fair value measurement

The Fund measures and recognises the following assets at fair value on a recurring basis:

- Financial assets at fair value through profit or loss (FVTPL) (see note 6)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

4 Fair value measurement (continued)

(i) Fair value in an active market (level 1) (continued)

The Fund values its investments in accordance with the accounting policies set out in note 2. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market prices used for both financial assets and financial liabilities were last traded prices.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such funds.

Recognised fair value measurements

The following table presents the Fund's assets and liabilities measured and recognised at fair value as at 30 June 2020 and 30 June 2019.

As at 30 June 2020	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Financial assets at fair value through profit or loss:				
Unit trusts	-	1,834	-	1,834
Debt securities	-	130,359	-	130,359
Total	-	132,193	-	132,193

4 Fair value measurement (continued)

Recognised fair value measurements (continued)

As at 30 June 2019	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets				
Financial assets at fair value through profit or loss:				
Unit trusts	-	2,750	-	2,750
Debt securities	-	152,058	-	152,058
Total	-	154,808	-	154,808

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

There were no transfers between levels for the year ended 30 June 2020 and year ended 30 June 2019. There were also no changes made to any of the valuation techniques applied as of 30 June 2019.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The Fund did not hold any financial instruments with fair value measurements using significant unobservable inputs during the year ended 30 June 2020 or year ended 30 June 2019.

(iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(iv) Fair values of other financial instruments

The Fund has assets and liabilities carried at amortised cost. Due to their short-term nature, their carrying values are a reasonable approximation of fair value.

5 Net gains/(losses) on financial instruments at fair value through profit or loss

Net gains/(losses) recognised in relation to financial assets and financial liabilities at fair value through profit or loss:

	Year ended	
	30 June 2020 \$'000	30 June 2019 \$'000
Financial assets		
Net realised gain/(loss) on financial assets at fair value through profit or loss	6,478	7,249
Net unrealised gain/(loss) on financial assets at fair value through profit or loss	<u>(534)</u>	<u>8,348</u>
Net gains/(losses) on financial assets at fair value through profit or loss	<u>5,944</u>	<u>15,597</u>
Total net gains/(losses) on financial instruments at fair value through profit or loss	<u>5,944</u>	<u>15,597</u>

6 Financial assets at fair value through profit or loss

	As at	
	30 June 2020 Fair value \$'000	30 June 2019 Fair value \$'000
Financial assets at fair value through profit or loss		
Unit trusts	1,834	2,750
Debt securities	<u>130,359</u>	<u>152,058</u>
Total financial assets at fair value through profit or loss	<u>132,193</u>	<u>154,808</u>
Comprising:		
Unit trusts		
Unit trusts	<u>1,834</u>	<u>2,750</u>
Total unit trusts	<u>1,834</u>	<u>2,750</u>
Debt securities		
Government securities	78,667	87,921
Corporate bonds	51,612	64,039
Mortgage backed securities	<u>80</u>	<u>98</u>
Total debt securities	<u>130,359</u>	<u>152,058</u>
Total financial assets at fair value through profit or loss	<u>132,193</u>	<u>154,808</u>

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in note 3 and note 4 to the financial statements.

7 Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	Year ended			
	30 June 2020 No.'000	30 June 2019 No.'000	30 June 2020 \$'000	30 June 2019 \$'000
Opening balance	141,757	218,210	156,155	230,436
Applications	29,124	19,657	32,465	21,145
Redemptions	(52,935)	(97,972)	(58,762)	(104,616)
Units issued upon reinvestment of distributions	936	1,862	1,026	2,009
Distributions paid and payable	-	-	(6,657)	(7,513)
Profit/(loss) for the year	-	-	5,239	14,694
Closing balance	<u>118,882</u>	<u>141,757</u>	<u>129,466</u>	<u>156,155</u>

As stipulated within the Fund's constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund.

There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

Capital risk management

The Fund considers its net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the responsible entity. Under the terms of the Fund's constitution, the responsible entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

8 Distributions to unitholders

The distributions for the year were as follows:

	Year ended			
	30 June 2020 \$'000	30 June 2020 CPU	30 June 2019 \$'000	30 June 2019 CPU
Total distributions for the year	<u>6,657</u>	<u>5.53</u>	<u>7,513</u>	<u>4.98</u>

At 30 June 2020, the above distributions include a distribution payable amount of \$4,117,761 (2019: \$1,863,540).

9 Cash and cash equivalents

	As at	
	30 June 2020 \$'000	30 June 2019 \$'000
Cash at bank	488	1,339
Call accounts	1,350	1,217
	<u>1,838</u>	<u>2,556</u>

10 Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities

	Year ended	
	30 June 2020 \$'000	30 June 2019 \$'000
(a) Reconciliation of profit/(loss) to net cash inflow/(outflow) from operating activities		
Profit/(loss) for the year	5,239	14,694
Purchase of financial instruments at fair value through profit or loss	(46,904)	(91,829)
Proceeds from sale of financial instruments at fair value through profit or loss	76,374	179,658
Net (gains)/losses on financial instruments at fair value through profit or loss	(5,944)	(15,597)
Net interest bought/(sold)	(276)	(998)
Net change in receivables	360	841
Net change in payables	(24)	(74)
Net cash inflow/(outflow) from operating activities	<u>28,825</u>	<u>86,695</u>
(b) Non-cash financing activities		
During the year, the following distribution payments were satisfied by the issue of units under the distribution reinvestment plan	1,026	2,009

As described in note 2(j), income not distributed is included in net assets attributable to unitholders. The change in this amount each period (as reported in (a) above) represents a non-cash financing cost as it is not settled in cash until such time as it becomes distributable.

11 Auditor's remuneration

During the year the following fees were paid or payable for services provided by the auditor of the Fund:

	Year ended	
	30 June 2020	30 June 2019
	\$	\$
PricewaterhouseCoopers Australian firm		
<i>Audit and other assurance services</i>		
Audit of financial statements and compliance plan audit	<u>21,529</u>	<u>20,994</u>
Total remuneration for audit and other assurance services	<u>21,529</u>	<u>20,994</u>
<i>Taxation services</i>		
Tax compliance services	<u>10,930</u>	<u>10,001</u>
Total remuneration for taxation services	<u>10,930</u>	<u>10,001</u>
Total remuneration of PricewaterhouseCoopers	<u>32,459</u>	<u>30,995</u>

12 Related party transactions

Responsible entity

Russell Investment Management Ltd (ABN 53 068 338 974), the responsible entity and manager of the Fund, is a wholly owned subsidiary of Russell Investment Group Pty Ltd (Australia).

The responsible entity is engaged in the business of providing investment management and administrative services on behalf of the Fund. It has appointed State Street Australia Limited to perform custody and certain administrative functions such as unit registry reporting and valuation services. To implement the multi-asset, multi-style, multi-manager diversification technique in relation to the Fund, the responsible entity will: (i) engage and, where necessary, replace the investment managers for the Fund; (ii) allocate assets among investment managers within the Fund; and (iii) monitor each investment manager's overall investment performance. For services rendered, the Fund pays the responsible entity a fee as discussed below.

The responsible entity retains the right under the terms of its agreements with the investment managers to direct them, subject to a requirement of best execution, to execute transactions that enable it to purchase brokerage and research services that assist in the provision of investment services to the responsible entity and are in the best interests of the unitholders. In addition, the investment managers may elect to purchase research services for their own benefit, subject to the best execution requirement. Brokerage and research services include (1) fundamental market research including performance characteristics of asset classes, investment styles, and allocation strategies; (2) advice either directly or indirectly through publications or writings as to the value of securities, the advisability of investing in, purchasing or selling securities and the availability of securities or of purchasers or sellers of securities; (3) analysis and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy and the performance of accounts; and (4) effecting securities transactions and performing functions incidental thereto (such as clearance and settlement) or that are required in connection therewith.

The responsible entity has received the following goods and services from brokers and dealers generally over the period of these accounts:

- written and oral research reports from brokers or dealers;
- computer based financial analytical systems, together with their associated software and servicing support; and
- statistical analysis relating to markets, companies, industries, business and economic factors, market trends and portfolio strategies.

12 Related party transactions (continued)

Brokerage commissions

The Fund may effect portfolio transactions through an affiliate of the responsible entity, when an investment manager determines that a Fund will receive competitive execution, price, and commissions. No commissions were retained by affiliates of the responsible entity for the year ended 30 June 2020 (2019: \$Nil).

Additionally, the Fund paid brokerage commissions to non-affiliated brokers who provided brokerage and research services to the responsible entity.

Key management personnel

(a) Directors

Key management personnel includes persons who were directors of Russell Investment Management Ltd at any time during the financial year as follows:

Peter Gunning
Jodie Hampshire
Symon Parish
Bronwyn Yates
Richard Smirl

(b) Other key management personnel

There were no other persons with responsibility for planning, directing and controlling the activities of the Fund, directly or indirectly during the financial year.

Key management personnel unitholdings

No key management personnel of the responsible entity held units in the Fund as at 30 June 2020 (2019: Nil).

Key management personnel compensation

Key management personnel are paid by Russell Investment Management Ltd. Payments made from the Fund to Russell Investment Management Ltd do not include any amounts directly attributable to the compensation of key management personnel.

Key management personnel loan disclosures

The Fund has not made, guaranteed or secured, directly or indirectly, any loans to the key management personnel or their personally related entities at any time during the reporting period.

Other transactions within the Fund

Apart from those details disclosed in this note, no key management personnel have entered into any transaction with the Fund since the end of the previous financial year and there were no material balance involving directors' interests outstanding at year end.

12 Related party transactions (continued)

Responsible entity's/manager's fees and other transactions

Under the terms of the Fund's constitution, the responsible entity is entitled to receive management fees and responsible entity's fees, calculated by reference to the average daily net assets (excluding net assets attributable to unitholders) of the Fund as follows:

Russell Investments Australian Bond Income Fund - Class A - Management fee 0.447% (2019: 0.447%) per annum.

The responsible entity's fee is 0.013% (2019: 0.013%) per annum of the average daily net assets (excluding net assets attributable to unitholders) for 2020.

All related party transactions are conducted on normal commercial terms and conditions. The transactions during the year and amounts payable at year end between the Fund and the responsible entity were as follows:

	30 June 2020	30 June 2019
	\$	\$
Management fees for the year paid by the Fund	645,102	862,494
Responsible entity's fees for the year paid by the Fund	19,133	25,588
Aggregate amounts payable to the manager at the end of the reporting period	45,031	53,979
Aggregate amounts payable to the responsible entity at the end of the reporting period	1,452	1,712

Related party unitholdings

Parties related to the Fund (including Russell Investment Management Ltd, its affiliates and other schemes managed by, or under trusteeship of Russell Investment Management Ltd or its affiliates), held no units in the Fund (2019: Nil).

Investments

The Fund held investments in the following schemes which are also managed by Russell Investment Management Ltd or its related parties:

	Fair value of investments		Interest held		Distributions received/receivable		Units acquired during the year		Units disposed during the year	
	2020	2019	2020	2019	2020	2019	2020	2019	2020	2019
	\$	\$	%	%	\$	\$	No.	No.	No.	No.
Russell Cash Sweep Fund	1,833,739	2,749,954	0.36	1.25	8,704	16,581	30,604,498	26,353,323	31,520,713	24,846,909

13 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact on the financial position of the Fund disclosed in the statement of financial position as at 30 June 2020 or on the results and cash flows of the Fund for the year ended on that date.

14 Contingent assets and liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 30 June 2020 and 30 June 2019.

Directors' declaration

In the opinion of the directors of the responsible entity:

- (a) the financial statements and notes set out on pages 6 to 28 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
 - (ii) giving a true and fair view of the Fund's financial position as at 30 June 2020 and of its performance for the financial year ended on that date; and
- (b) there are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable; and
- (c) Note 2(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Director

Sydney
22 September 2020

Independent auditor's report

To the unitholders of Russell Investments Australian Bond Income Fund

Our opinion

In our opinion:

The accompanying financial report of Russell Investments Australian Bond Income Fund (the Fund) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Fund's financial position as at 30 June 2020 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2020
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include a summary of significant accounting policies
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
