This process usually takes effect two business days after we receive your request, but will be delayed if your request clashes with another transaction such as a monthly pension payment.
- › There are transaction costs associated with making a switch, which are expressed as a buy-sell spread. You must provide us with specific instructions for your Contribution Account and Pension Account(s).

Option A: Tick this box if you do NOT want to change your Contribution Account investments.

OR

Option B: Complete the below table to switch the investments held in your Contribution Account.

You can choose an investment strategy that applies to both your Current Benefit and your Future Transactions. Your Current Benefit is the balance you already have in the Fund. Your Future Transactions include contributions, deductions and rollovers processed in the future.

Alternatively, you can choose an investment strategy for your Current Benefit and a different strategy for your Future Transactions. For example:

- › Current Benefit – 100% Balanced Growth
- › Future Transactions – 50% Balanced Growth; 50% Defensive.

This would mean all the funds you currently have would be invested in the Balanced Growth Option, but contributions you make in the future would be split between the Balanced Growth and Defensive Options.

By completing this form, you are directing the Trustee to invest your Current and/or Future Benefit in accordance with the investment strategy shown in the table below. You can update your choice(s) at any time by logging into your online account via russellinvestments.com.au/login
