

2. Search for your super

Tick this box to provide consent.

By ticking this box, you are consenting to the Trustee of the Russell Investments Master Trust (the Fund, iQ Super) using your Tax File Number (TFN) to search for other super accounts you may have, now and in the future, using a facility provided by the Australian Taxation Office (ATO). We will automatically consolidate any ATO-held super (known as Lost or Unclaimed money). If we find any super with other funds we will let you know, so you can decide if you want to transfer them into your iQ Super account.

3. Make an investment choice

! Some of the investment options given below have a footnote included, and it's important that you read the footnote on the relevant investment options before completing the form.

You can choose to invest in GoalTracker (a personalised investment strategy built around you) or set your own investment strategy.

1. Choose the GoalTracker Option

By ticking the box, GoalTracker will automatically invest your super based on information it knows about you, such as your age. The more you tell us, the more we're able to personalise your investment strategy with GoalTracker Plus.

Note: the GoalTracker Option is not available to defined benefit members.

³ These investment options carry a low level of investment risk, which means they are likely to deliver low investment returns. If you're planning to invest a significant amount of your super in these options for more than 1-2 years, it's important to consider this. You should read the PDS and/or get financial product advice before you continue. If you have any questions or want more information, please contact us.

⁴ If you are planning to invest a significant portion of your super in a single asset class, it's worth considering diversification when making decisions about super investments. You should read the PDS and/or get financial product advice before you continue. If you have any questions or want more information, please contact us.

⁵ These investment options carry a very high level of investment risk. If you're planning to invest a significant amount of your super in these options, it's important to consider this risk. You should read the PDS and/or get financial product advice before you continue. If you have any questions or want more information, please contact us.

Your request will be effective two business days after we receive your completed form. You can update your choice(s) at any time by logging into your online account at russellinvestments.com.au/login

Do you want to rebalance your investments?

This is only relevant to you, if you have selected more than one investment option. If you select to rebalance your investments, we reset your account balance on the 15th of each month, to match the original investment strategy you selected.

Below is an example where the member investment strategy is 50% Balanced Growth and 50% Defensive:

	BALANCED GROWTH	DEFENSIVE	TOTAL
Initial investment	\$5,000	\$5,000	\$10,000
Your balance on the 15th of the following month	\$5,300	\$5,100	\$10,400
Your balance after rebalancing	\$5,200	\$5,200	\$10,400

If you select this option, you cannot switch your investments during the two working days prior to the 15th of each month. You cannot select this option if you have selected different strategies for your Current balance and Future transactions.
