2. Search for your super

Tick this box to provide consent.

By ticking this box, you are consenting to the Trustee of the Russell Investments Master Trust (the Fund, iQ Super) using your Tax File Number (TFN) to search for other super accounts you may have, now and in the future, using a facility provided by the Australian Taxation Office (ATO). We will automatically consolidate any ATO-held super (known as Lost or Unclaimed money). If we find any super with other funds we will let you know, so you can decide if you want to transfer them into your iQ Super account.

3. Making an investment choice

! You can choose an investment strategy that applies to both your Current Benefit and your Future Transactions. Your Current Benefit is the balance you already have in the Fund. Your Future Transactions include contributions, deductions and rollovers processed in the future.

Alternatively, you can choose an investment strategy for your Current Benefit and a different strategy for your Future Transactions. For example:

- » Current Benefit – 100% Balanced
- » Future Transactions – 50% Balanced; 50% Defensive.

This would mean all the funds you currently have would be invested in the Balanced Option, but contributions you make in the future would be split between the Balanced and Defensive Options.

By completing this form, you are directing the Trustee to invest your Current and/or Future Benefit in accordance with the investment strategy shown in the table below. This will classify you as a Choice member, rather than a MySuper member.

You can update your choice(s) at any time by logging into your online account via russellinvestments.com.au. The effective date of processing will be two business days after we receive your completed form.
