1 Basis of preparation of interim report

This interim report for the half-year ended 31 December 2020 has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

These interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, these interim financial statements are to be read in conjunction with the annual financial report for the year ended 30 June 2020 and any public announcements made in respect of Russell Investments International Shares Fund during the interim reporting period.

The principal accounting policies adopted are consistent with those of the previous financial year and the corresponding interim reporting period, unless otherwise stated.

(a) New accounting standards and interpretations

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2020 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

2 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (FVTPL) (see note 3 and note 4)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 Fair Value Measurement requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); or
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The Fund values its investments in accordance with the accounting policies set out in notes to the financial statements as at 30 June 2020. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market prices used for both financial assets and financial liabilities were last traded prices other than exchange traded futures, which are valued at the market closing price.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not traded in an active market are determined by using quoted market prices, dealer quotes and/or valuation techniques.

Forward currency contracts are valued using quoted exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts as at the valuation date.

2 Fair value measurement (continued)

Recognised fair value measurements

The following table presents the Fund's assets and liabilities measured and recognised at fair value through profit or loss across the fair value hierarchy.

As at 31 December 2020	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

There were no transfers between levels for the half-year ended 31 December 2020. There were also no changes made to any of the valuation techniques applied as of 30 June 2020.

2 Fair value measurement (continued)

(ii) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the movement in level 3 instruments for the half-year ended 31 December 2020:

For the half-year ended 31 December 2020	Equity securities \$'000

Closing balance	-
*includes unrealised gains/(losses) recognised in the statement of comprehensive income attributable to balances held at the end of the reporting period	(8)

(iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which could be regarded as being level 2 or level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(iv) Fair values of other financial instruments

The Fund has assets and liabilities carried at amortised cost. Due to their short-term nature, their carrying values are a reasonable approximation of fair value.

Independent auditor's review report to the unitholders of Russell Investments International Shares Fund

Report on the half-year financial report

Conclusion

We have reviewed the half-year financial report of Russell Investments International Shares Fund (the Registered Scheme) which comprises the statement of financial position as at 31 December 2020, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, selected other explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Russell Investments International Shares Fund does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Registered Scheme's financial position as at 31 December 2020 and of its performance for the half-year ended on that date
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report.

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Auditor's responsibility for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Registered Scheme's financial position as at 31 December 2020 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
