Important Information

About this Product Disclosure Statement (PDS)

This PDS was issued on 25 October 2023 and produced by Russell Investment Management Ltd ABN 53 068 338 974, AFS Licence Number 247 185 (**Responsible Entity, we, us, our, RIM**) as the Responsible Entity of the Russell Investments Sustainable Global Shares ex Fossil Fuels Fund (**Fund**). This PDS relates to investments in Class A units in the Fund (**Units**) and a reference in this PDS to the 'Fund' is a reference to the Russell Investments Sustainable Global Shares ex Fossil Fuels Fund, or, where the context requires, is a reference to the Class A units in the Fund. No other fund, trust or class of units is offered under this PDS.

This PDS provides a summary of significant information and contains a number of references to important information contained in the Additional Information Booklet (each of which forms part of the PDS) where marked with a symbol or otherwise indicated. You should consider all of this information before making a decision about the Fund. The information provided in this PDS and the Additional Information Booklet is for general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

All dollar amounts in this PDS are references to Australian dollars.

The Information in this PDS is current as at the issue date. Information that is not materially adverse may change from time to time. We will update this information by publishing changes on our website, <https://russellinvestments.com/au>. A paper copy of the PDS, the Additional Information Booklet and any updated information is available free of charge on request by contacting us using the details under the "How to

contact Us' set out below. For Indirect Investors investing through a platform, updated information may also be obtained from your platform operator'.

Eligibility

Investors who qualify as 'Wholesale Clients' as defined under section 761G of the *Corporations Act 2001* (**Wholesale Clients**) may invest in Units in the Fund. This PDS can only be used by persons receiving it (electronically or in hard copy) in Australia and does not constitute an offer or recommendation of securities in any jurisdiction, or to any person to whom it would be unlawful to make such an offer.

'Retail Clients' as defined under section 761G of the *Corporations Act 2001* can only access Units in the Fund through master trusts, wrap accounts, investor directed portfolio services and nominee or custody services. We call these services 'platforms' or 'platform operators' and refer to people who invest through them as 'Indirect Investors'.

Unless otherwise defined in this document, defined terms have the meaning given to them in the Additional Information Booklet.

How to Contact Us

If you are accessing the Fund through a platform you should first contact the operator of the platform.

Otherwise, see the contact details below.

1. About Russell Investment Management Ltd

RIM is the Responsible Entity for the Fund. RIM is responsible for the operation of the Fund and has the power to delegate certain duties in accordance with the Corporations Act 2001 and the constitution of the Fund (**Constitution**).

Russell Investments is a global investment solutions partner, dedicated to helping investors reach their long-term goals. Building on an 87 year legacy of continuous innovation to deliver exceptional value to clients, Russell Investments offers investment solutions in 30 countries, managing over A\$447 billion in assets (as of 30 June 2023). Russell Investments specialises in multi-asset solutions, scouring the globe for investment strategies, managers and asset classes to deliver to its clients around the world.

Headquartered in Seattle, Washington, Russell Investments has offices in 17 cities, including in New York, London, Tokyo and Shanghai. For more information about how Russell Investments helps to improve financial security of its clients, visit <https://russellinvestments.com/au>.

RIM may appoint one or more different money managers (including other members of Russell Investments) (each an "investment manager") to manage some or all of the assets of the Fund.

You should read the important information 'About Russell Investment Management Ltd' before making a decision - go to section 1 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/aboutrim>.

The material relating to 'About Russell Investment Management Ltd' may change between the time when you read this PDS and the day when you acquire the product.

2. How the Fund works

The Fund is a managed investment scheme (**MIS**) registered with the Australian Securities and Investments Commission (**ASIC**). 'Interests' in a scheme are 'financial products' and are governed by the Corporations Act 2001 and the Constitution. When you invest in the Fund, your money is pooled with investments from other investors and used to buy assets for the Fund, which we manage on behalf of all investors. We, rather than you, have control over the Fund's assets, management and operation. Your investment is not a direct investment in any particular asset of the Fund and does not give you an interest in it. This PDS relates to Class A units in the Fund and all rights and entitlements of a Unit relates to the assets, liabilities and other amounts referable to those Class A Units.

Indirect Investors accessing the Fund through a platform should contact the operator of the platform for information on how to transact. Other investors should refer to the information below.

Investing

You must complete the Application Form attached to this PDS. If you are a new investor, you must also complete the forms contained in the Client Account Manual, which is available from Russell Investments Fund Operations.

Application Forms are generally processed each business day. As long as we receive your completed Application Form and application money by 12:00 noon Sydney time on a business day, we will generally process your application using the entry price for that business day. If we receive your completed Application Form or additional investment and application money after this time, or on a day that is not a business day, we will generally process your application using the entry price for the next business day after we receive it.

Application monies that have been received but are not able to be invested will be held without bearing interest for up to one month following receipt, at which time the monies will be returned to you.

Please note that we may, without giving any reason, refuse all or part of an application.

When you invest directly you will be issued a number of Units in the Fund, based upon the amount invested and the current entry price for Units. Entry prices for Units are determined in accordance with the Constitution based on the net asset value of Units (**NAV**) divided by the number of Units on issue in the Fund, plus any buy spread as referred to in section 6, Fees and Costs, of this PDS. The NAV for Units is calculated based on the assets of the Fund attributable to Class A units less the liabilities (including costs and expenses) of the Fund attributable to Class A units.

Your Units represent your proportionate share of the Fund and the value of your investment. As a result, each Unit has a dollar value or 'unit price'. In accordance with the Constitution we may create and issue additional classes of units in the Fund.

Unit prices in the Fund will vary as the market value of the assets of the Fund rises or falls.

You can increase your investment in the Fund at any time by applying for more Units in the Fund and decrease your investment by transferring or withdrawing some of your Units in the Fund. Please contact Russell Investments Fund Operations for instructions on how to make additional investments.

Withdrawing

Exit prices for Units are determined in accordance with the Constitution based on the NAV divided by the number of Units on issue in the Fund, less any sell spread as referred to in section 6, Fees and Costs, of this PDS. Withdrawal requests are generally processed each business day. As long as we receive your completed withdrawal request by 12:00 noon Sydney time on a business day, we will generally process the withdrawal request using the exit price for that business day. If we receive a request after this time, or on a day that is not a business day, we will generally process the request using the exit price for the next business day after we receive it.

Withdrawal monies will generally be paid within 14 days of us processing a withdrawal request.

The Constitution allows us more time to process withdrawal requests and pay withdrawal monies than outlined above.

The processing of withdrawal requests may be delayed while a distribution is being determined (see "Distributions" below). Upon resumption of processing, we will generally process your withdrawal request using the exit price for the day we received it.

Suspension of transactions

In some circumstances, such as where we may suspend the processing of withdrawal requests (including for example, where it is impractical to calculate the exit price due to market closures or trading restrictions) investors will not be able to withdraw their funds within the usual time on request. Withdrawal requests received by us during a period of suspension are deemed to be received on the first business day after cessation of the suspension.

Distributions

Any income of the Fund is usually distributed semi-annually. In addition:

- Where there are large withdrawals from the Fund on any one day, we may determine that part of a withdrawal amount consists of income. If this circumstance affects a withdrawal you have made, this will be advised to you in your annual tax statement.
- Where there are large applications to the Fund on any one day, we may determine to calculate and pay a special distribution to all investors of the Fund. If this occurs, you will be issued with a distribution statement.

The distribution amount you will receive for Units will be the pro rata proportion of the income available for distribution to Unitholders, calculated according to the number of Units you hold relative to the number of Units on issue at the relevant time. Unit prices may fall after a distribution. If you invest just before income is distributed, you may find you quickly get back some of your capital as income.

Distributions are reinvested unless you elect otherwise. You can elect to have your distributions paid directly into a nominated Australian or New Zealand bank account by notifying us.

All reinvested distributions are invested at the price next calculated after the distribution is paid. There is no buy/sell spread associated with distribution reinvestment.

Please note that, whilst generally the Fund will distribute income as specified above, there is no guarantee that income will be available for distribution in any distribution period.

 You should read the important information about 'How the Fund works' before making a decision - go to section 2 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/howfundworks>

The material relating to 'How the Fund works' may change between the time when you read this PDS and the day when you acquire the product.

3. Benefits of investing in the Fund

 The Fund considers sustainable investments and applies investment exclusions to the extent detailed in the 'ESG considerations' in section 5 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/investing>.

Decarbonisation strategy - the Fund is designed using Russell Investments' proprietary decarbonisation strategy. The decarbonisation strategy uses a combination of the following measures: carbon footprint, carbon reserves, a proprietary green energy ratio and Material ESG Score to determine the companies and their weighting within the Fund.

Exclusion of certain industries - the Fund excludes companies with involvement in certain activities including tobacco, anti-personnel mines, cluster munitions and nuclear weapons.

Exclusion of fossil fuel companies - in addition to the decarbonisation strategy and other exclusions described above, the Fund also excludes companies with fossil fuel reserves as well as companies with a significant involvement with fossil fuels.

Supporting positive action - the Fund's portfolio is positively tilted towards companies with higher than average Material ESG Score.¹

An ongoing research agenda - Russell Investments is committed to ongoing research in sustainable investment. The decarbonisation strategy used in this Fund will evolve overtime to reflect Russell Investments' latest findings and best practice in sustainable investing.

4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short term risk. For example, shares and commodities have relatively higher risk, and higher expected return, than fixed interest and cash.

As with most investing, returns are not guaranteed and investors in the Fund may lose some or all of their money. The value of your investment will vary. The level of returns will vary, and future returns may differ from past returns. Laws affecting registered MISs (including the Fund) may change in the future.

Short-term fluctuations in the value of investments are common, particularly with respect to shares and commodities.

The risk/return graph below indicates the relative position of each major asset class.

Risk and Return

Risks may result in loss of income, loss of principal invested and possible delays in repayment.

You could receive back less than you invested and there is no guarantee that you will receive any income.

Also remember that past performance is not a reliable indicator of future performance.

Source: Russell Investment Management Ltd.

Note: The above risk/return graph indicates potential return volatility for different asset classes. Asset classes with higher volatility of returns are considered to have higher risk, but they are generally expected to produce a greater return over the long-term.

 You should read the important information about 'Risks of managed investment schemes' before making a decision - go to section 4 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/risks>.

The material relating to 'Risks of managed investment schemes' may change between the time when you read this PDS and the day when you acquire the product.

The significant risks you should be aware of are:

Currency risk: the Fund is exposed to foreign assets and is therefore exposed to currency risk. Currency movements may affect the performance of the Fund. The Fund may use currency hedging programs.

Counterparty and settlement risk: the Fund is exposed to counterparty and settlement risk. These risks are influenced by, amongst other things, market practices (e.g. settlement and custody practices), the creditworthiness of the parties the Fund is exposed to and the level of government regulation in countries in which the Fund invests.

Derivatives risk: the Fund is exposed to exchange-traded and over-the counter derivative instruments including but not limited to currency forwards and swaps, interest rate and total return swaps and futures and options. Derivatives usually derive their value from the value of a physical asset, interest rate, exchange rate or market index. They can be used to manage certain risks in investment portfolios; however, they can also expose a portfolio to additional risks.

A derivative contract may involve leverage i.e. it provides exposure to a potential gain or loss from a change in the level of the market price of a security, currency or basket index in a notional amount that exceeds the amount of cash or assets required to establish or maintain the derivative contract. Accordingly, derivative instruments can be highly volatile and expose investors to a high risk of loss.

Emerging markets risk: the Fund is exposed to emerging market securities, which may be subject to higher levels of market volatility leading to higher general investment risk. Interest rate and currency risks may be greater due to higher levels of volatility in the economies of emerging markets. Furthermore, emerging market securities are often less liquid than the securities of developed markets. Counterparty and settlement risks are also increased.

Market risk: the market price of the Fund's investments may fluctuate as a result of such factors as economic conditions, regulations, sentiment and geopolitical events as well as environmental, social and technological changes. These fluctuations may impact on the value of the investments in the Fund which will impact on the unit price of the Fund.

1. Russell Investments proprietary Material ESG Score has an explicit focus on identifying ESG issues that are considered financially material to a company's business.

To manage your risks, you should obtain professional investment advice that is tailored to your investment objectives, financial situation and particular needs. The level of risk for

each investor will vary depending on a range of factors including age, investment timeframe, where other parts of the investor's wealth are invested and risk tolerance.

5. How we invest your money

WARNING: You should consider the likely investment return, the risk and your investment timeframe when choosing to invest in the Fund.

Russell Investments Sustainable Global Shares ex Fossil Fuels Fund - Class A
ARSN: 645 709 388 APIR: RIM5218AU

Investment return objective:

To provide a total return, before costs and tax, in line with the Fund's benchmark over rolling three year periods with a focus on reducing the Fund's exposure to carbon.

Suitability:

Suitable for investors seeking overseas share-like returns who have a long investment horizon and are willing to accept some currency and emerging markets risks. The Fund may suit investors who value environmental, social and governance (ESG) considerations in the portfolio construction process, including those seeking a fossil fuel free exposure. Investors must also be willing to accept the possibility of negative returns over the short to medium term.

Minimum investment timeframe:

7 years

Benchmark:

MSCI ACWI ex Australia ex Fossil Fuels Index Net

Investment strategy[^]:

The Fund invests predominantly in a broad range of international shares listed on stock exchanges in developed and emerging international markets. The Fund targets a reduction in carbon exposure, and an increase in exposure to renewable energy, compared to the MSCI ACWI ex Australia Index. The Fund excludes companies with fossil fuel reserves or a significant involvement in fossil fuel activities. The Fund also employs certain other investment exclusions. Derivatives may be used by the Fund to obtain or reduce exposure to securities and markets, to implement investment strategies and to manage risks.

Asset allocation^{*}: The Fund may invest up to 100% in international shares. The Fund may also invest up to 10% in cash⁺.

Risk level^{}:** High

[^] The Fund performance is benchmarked to the MSCI ACWI ex Australia ex Fossil Fuels Index. As the benchmark excludes fossil fuels, the carbon exposure will be compared against the MSCI ACWI ex Australia Index. For further information on how the Fund seeks to achieve a reduced carbon exposure, an increase in exposure to renewable energy, and the investment exclusions employed, refer to **ESG considerations** in the 'How we invest your money' section of the Additional Information Booklet.

^{*} The actual asset allocation may temporarily fall outside the ranges stated above in certain circumstances, such as asset transitions or extreme market movements.

⁺ Refers to the net cash exposure.

^{**} The risk level assigned to the Fund is based on our assessment of how often the Fund may experience a negative annual return in a 20 year period. Please refer to the 'Risks' section in the 'How we invest your money' section in the Additional Information Booklet.

 You should read the important information about 'How we invest your money', including further information about the Fund's ESG considerations before making a decision - go to section 5 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/investing>.

The material relating to 'How we invest your money' may change between the time when you read this PDS and the day when you acquire the product.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example reduce it from \$100 000 to \$80 000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneySMART.gov.au) has a managed funds fee calculator to help you to calculate the effect of fees and costs on account balances and check out different fee options.

This section shows fees and other costs you may be charged. This information can be used to compare costs between different simple managed investment schemes. These fees and costs can be paid directly from your account or deducted from your investment returns. Taxes are set out in another part of this document. If you are an Indirect Investor investing via a platform, any additional fees that you may be charged by the platform operator should be set out in their offer document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

- 1 See 'Additional explanation of fees and costs' below and in the Additional Information Booklet, which forms part of this PDS, for further details on fees and costs that may be payable. Unless otherwise stated, the fees and costs shown are inclusive of GST and net of any applicable input tax credits and reduced input tax credits and are shown without any other adjustment in relation to any tax deduction available to RIM.
- 2 The amount of the management fee may be negotiated if you are a wholesale client pursuant to the Corporations Act. For further information refer to 'Different fees' in the 'Additional explanation of fees and costs' section in the Additional Information Booklet.
- 3 All estimates of fees and costs in this section are based on information available as at the date of this PDS. Management fees reflect RIM's reasonable estimates of the typical fees for the relevant stated periods. All costs reflect the actual amount incurred for the previous financial year and may include RIM's reasonable estimates where information was not available as at the date of this PDS or where RIM was unable to determine the exact amount. These costs can vary from period to period and the actual costs incurred in future periods may differ from the numbers shown here. Please refer to the 'Additional explanation of fees and costs' section below and in the Additional Information Booklet for more information on fees and costs that may be payable. Management fees and costs may not equal the management fee plus indirect costs plus expense recoveries due to rounding.
- 4 The transaction costs disclosed in this section are shown net of any recovery received by the Fund from the buy/sell spread charged to transacting Unitholders. Please refer to the 'Additional explanation of fees and costs' section in the Additional Information Booklet for further details.
- 5 In estimating the buy/sell spread, RIM has assumed that the applications or withdrawals are made during normal market conditions. In times of stressed or dislocated market conditions (which are not possible for RIM to predict), the buy/sell spread may increase significantly and it is not possible to reasonably estimate the buy/sell spread that may be applied in such situations. RIM may vary the buy/sell spreads from time to time, including increasing these costs without notice when it is necessary to protect the interests of existing investors and if permitted by law. The updated information will be disclosed on our website. Please refer to the 'Additional explanation of fees and costs' section in the Additional Information Booklet for further details.

Example of annual fees and costs for the Russell Investments Sustainable Global Shares ex Fossil Fuels Fund - Class A

This table gives an example of how the ongoing annual fees and costs in the Russell Investments Sustainable Global Shares ex Fossil Fuels Fund - Class A can affect your investment over a 1 year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example: Russell Investments Sustainable Global Shares ex Fossil Fuels Fund - Class A		
Balance of \$50,000 with a contribution of \$5,000¹ during the year		
Contribution Fee	Nil	For every \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs^{3,4}	0.56% p.a. of the NAV of the Fund	And, for every \$50,000 you have in the Fund, you will be charged or have deducted from your investment \$280 each year.
PLUS Performance fees	0.00% p.a. of the NAV of the Fund	And, you will be charged or have deducted from your investment \$0 in performance fees each year.
PLUS Transaction costs	0.03% p.a. of the NAV of the Fund	And, you will be charged or have deducted from your investment \$15 in transaction costs.
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$295 ^{2,3} . What it costs you will depend on the investment option you choose and the fees you negotiate.

- 1 The additional management fees and costs will be on a pro-rata basis and will vary depending on when you have made the additional investment during the year. This example is prescribed by the Corporations Act, assumes that the \$50,000 is invested for the entire year, the value of the investment is constant over the year and that the additional \$5,000 is invested on the last day of the year (and therefore, the management fees and costs are calculated using an investment balance of \$50,000 only). Please note this is an example only. In practice your actual investment balance will vary daily, and hence the actual management costs charged, will also vary daily.
- 2 Additional fees may apply. A buy/sell spread may also apply to investments into and withdrawals from the Fund, which is not taken into account in this example. Please refer to section 6 of the 'Additional Information Booklet' under 'Fees and costs' for more information.
- 3 This example uses the management fees and costs for the period up to 31 December 2023. Management fees reflect RIM's reasonable estimates of the typical fees for the period until 31 December 2023. All costs reflect the actual amount incurred for previous financial year and may include RIM's reasonable estimates where information was not available as at the date of this PDS or where RIM was unable to determine the exact amount. Please refer to the 'Additional explanation of fees and costs' section below and in the Additional Information Booklet for more information on fees and costs that may be payable.
- 4 The amount of the management fee may be negotiated if you are a wholesale client pursuant to the Corporations Act. For further information refer to 'Different fees' in the 'Additional explanation of fees and costs' section in the Additional Information Booklet.

Warning: If you consult a financial adviser, additional fees may be paid by you. You should refer to the statement of advice provided by your financial adviser in which details of the fees are set out.

 You should read the important information about 'Fees and costs' before making a decision - go to section 6 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/fees>

The material relating to 'Fees and costs' may change between the time you read this PDS and the day you acquire the product.

Additional explanation of fees and costs

Fee changes

We have the right to change the fees described in this PDS at any time, without your consent, except if required by the Corporations Act. Any increase in the Fund's fees will be communicated to you at least 30 days before it occurs when legally required to do so. All estimates of fees and costs in this section 6 are based on information available as at the date of this PDS. You should refer to the Fund's website <https://russellinvestments.com/au> from time to time for any updates which are not materially adverse to investors.

7. How managed investment schemes are taxed

Warning: Investing in a registered MIS is likely to have tax consequences and you are strongly advised to seek professional tax advice.

A registered MIS does not generally pay tax on behalf of Australian resident investors, who are assessed for tax on any income and capital gains generated by the registered MIS, and capital gains on disposal of their units in the MIS. Non-resident investors should seek their own specific advice.

Tax laws are subject to change and the tax consequences of investing in the Fund may differ from investor to investor.

You should read the important information about 'How managed investment schemes are taxed' before making a decision - go to section 7 of the Additional Information Booklet available at <https://russellinvestments.com/au/RFA/tax>

The material relating to 'How Managed investment schemes are taxed' may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

Note for Indirect Investors

When you invest in the Fund through a platform, we will not collect or hold personal information about you. You should contact your platform operator for details on how they manage your personal information.

Wholesale Clients

You need to read this PDS and the additional information that is referenced in this PDS. Then you must complete and sign the Application Form attached to this PDS. Refer to the 'How the Fund works' section for more detail.

Cooling off rights

Cooling off rights do not apply to investments made pursuant to this PDS. Indirect Investors investing through a platform should consult the PDS of the platform operator in relation to cooling-off terms.
