

RUSSELL INVESTMENTS MULTI-ASSET GROWTH RANGE

Investing for growth

Find out how the
Multi-Asset Growth
Range can help you
achieve your goals.

The Multi-Asset Growth Range

There's a range of Multi-Asset Growth funds available to cater for your individual investment needs. Your adviser will be able to help you identify what's right for you and build a plan to help you reach your goals.

MULTI-ASSET GROWTH FUND I

With a significant portion invested in Fixed Income, this is the lowest risk fund in the growth range. It is designed to minimise falls in value while providing the potential for some growth.

If £1,000 is invested for 10 years, based on our calculations:

- › The target wealth you could expect is £1,476
- › There is a 5% chance that the wealth could be greater than £1,896
- › There is a 5% chance that the wealth could be lower than £1,082

MULTI-ASSET GROWTH FUND II

Well-diversified but with a bias to low risk assets, this fund is designed to protect your capital while delivering growth potential.

If £1,000 is invested for 10 years, based on our calculations:

- › The target wealth you could expect is £1,622
- › There is a 5% chance that the wealth could be greater than £2,313
- › There is a 5% chance that the wealth could be lower than £1,063

MULTI-ASSET GROWTH FUND III

The fund targets capital growth over the long term by combining a range of investments such as equities, bonds and commodities which we actively manage in response to our market insights.

If £1,000 is invested for 10 years, based on our calculations:

- › The target wealth you could expect is £1,752
- › There is a 5% chance that the wealth could be greater than £2,756
- › There is a 5% chance that the wealth could be lower than £1,034

MULTI-ASSET GROWTH FUND IV

A higher growth option, this fund has a larger allocation to equities whilst remaining well-diversified. It offers enhanced potential for growth over the long term.

If £1,000 is invested for 10 years, based on our calculations:

- › The target wealth you could expect is £1,844
- › There is a 5% chance that the wealth could be greater than £3,124
- › There is a 5% chance that the wealth could be lower than £1,000

MULTI-ASSET GROWTH FUND V

The most adventurous in the multi-asset growth suite, this fund is suitable for investors who require more growth potential over the long term and are comfortable with some degree of risk.

If £1,000 is invested for 10 years, based on our calculations:

- › The target wealth you could expect is £1,970
- › There is a 5% chance that the wealth could be greater than £3,643
- › There is a 5% chance that the wealth could be lower than £963

MULTI-ASSET GROWTH FUND RANGE

Russell Investments' Multi-Asset Growth range gives you access to well-diversified strategies in a single investment decision. They aim to deliver predictable investment performance to help you plan for your future.

This sample asset allocation represents the Multi-Asset Growth Fund III. There are five funds to choose from and your adviser will recommend which is best suited to your needs.

A TOTAL GROWTH SOLUTION

The future is full of surprises. But when it comes to investments, you want as much certainty as possible. The world's largest investors – institutional pension funds – feel the same. That's why many of them – J Sainsbury, Mercedes Benz and Toshiba to name a few – have chosen us to manage their portfolios. Like you, they want security for their future.

The Russell Investments' Multi-Asset Growth Range brings this same level of investment expertise to individual investors. The new range is managed using the same team and processes as our flagship institutional fund, also used for Russell Investments' own pension scheme. This means that the intensive research, sophisticated tools, buying power and trading capabilities enjoyed by some of the world's largest investors is now available to you.

The investment styles employed by a Fund's money managers may not be complementary. This concentration may be beneficial or detrimental to a Fund's performance depending upon the performance of those securities and the overall economic environment. The multi-manager approach could increase a Fund's portfolio turnover rates which may result in higher levels of realised capital gains or losses with respect to a Fund's portfolio securities, higher brokerage commissions and other transaction costs. Money managers listed are current as of 31/12/2017. Subject to the Funds' Board approval, Russell Investments has the right to engage or terminate a money manager at any time and without a shareholder vote. Investments in the Funds are not deposits with or liabilities of any of the money managers and are subject to investment risk, including loss of income and principal invested and possible delays in payment of redemption proceeds. The money managers do not guarantee the performance of any Fund or any particular rate of return.

For more information please contact your financial adviser.

Please note that the value of investments and the income derived from them may go down as well as up and you may not receive back the amount originally invested. Any data on past performance, modelling or back-testing contained herein is no indication as to future performance. No representation is made as to the reasonableness of the assumptions made within or the accuracy or completeness of any modelling or back-testing.
