

# Key Information Document

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

### Russell Investments Global Low Carbon Equity Fund (the "Fund") a sub-fund of OpenWorld plc (the "Company") Class A EURO (IE00BZ3T6J97)

Manufacturer: Russell Investments Limited, a member of Russell Investments Group, Ltd.

The Central Bank of Ireland is responsible for supervising Russell Investments Limited in relation to this Key Information Document. This Company is authorised in Ireland. The Fund, as a sub-fund of the Company, has been approved by the Central Bank of Ireland. Carne Global Fund Managers (Ireland) Limited ("Carne"), the UCITS management company of the Company, is authorised in Ireland and regulated by the Central Bank of Ireland.

For more information about the Fund, please refer to [www.russellinvestments.com](http://www.russellinvestments.com) or call us at +44 20 7024 6000.

This document was produced on 1 January 2023.

## What is this product?

### Type:

This product is a type of collective investment scheme, specifically, a sub-fund of an Irish authorised undertaking for collective investment in transferable securities (or "UCITS") constituted as an investment company under Irish company law. Your investment will take the form of shares in the Fund.

### Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

### Objectives:

The objective of the Fund is to invest in equities of companies globally with a particular focus on reducing carbon exposure and improving environmental, social and governance ("ESG") characteristics relative to the MSCI World Index (the "Index").

To achieve this objective, the Fund will invest at least 80% of its assets in equities and equity-related instruments contained in the Index. Following the selection of the equity securities, a proprietary active overlay will be applied to the portfolio of the Fund to identify securities that will allow the Fund to:

I. decrease its exposure to companies that engage in carbon-intensive activities or which have a significant carbon footprint and/or carbon reserves, while increasing its exposure to companies which perform positively in these areas. At a minimum, the Fund will have 30% less carbon exposure than the Index, although in normal market conditions, the Fund expects to have approximately 50% less carbon exposure than the Index.

II. in relation to energy producing companies within the Index, increase its exposure to such companies that on average produce greener energy (energy produced from renewable resources) relative to the other such companies contained in the Index.

III. increase its exposure to companies in the Index that have higher ESG characteristics than the Index average, by applying a score to each company based on an assessment of ESG topics such as, the company's involvement in incidents and controversies, employee turnover rate, board diversity and human capital development. Each company will be rated according to the issues that are most material for the industry that they are in.

Non-financial analysis will be undertaken on at least 90% of the Fund's assets using a binding and significantly integrated approach. Such analysis will be

limited by the availability and quality of sustainability related data and information provided by third parties, which may be incomplete, inaccurate, or inconsistent.

The Fund may also hold up to 5% in cash or investments which are highly liquid and have high credit quality.

The Fund will not invest more than 20% in emerging markets.

The Fund may gain market exposure indirectly through the use of specialist financial techniques (known as derivatives). Derivatives may also be used to reduce the Fund's exposures to currency risk or to manage the Fund more efficiently.

As your shares are in Euro and the Fund is in US Dollars, fluctuating currency exchange rates may affect the value of your investment.

Income of the Fund will be re-invested to increase the value of your investment.

You may sell your shares in the Fund on any day on which banks are normally open for business in Ireland. For further information please refer to the "Repurchases of Shares" section of the prospectus.

The Fund may be terminated at the discretion of the directors of the Company, provided that a minimum of twenty-one days' written notice has been provided to Shareholders. The Fund may also be terminated by the Shareholders in the Fund, if voted for by at least 75% of the Shareholders in the Fund.

The Fund's depositary is State Street Custodial Services (Ireland) Limited.

The share price is published on each business day and is available online at [www.bloomberg.com](http://www.bloomberg.com).

Further information about the Fund, copies of the English, German, French and Italian prospectus and the latest annual and semi-annual reports in English may be obtained free of charge by writing to Russell Investments, Rex House, 10 Regent Street, London SW1Y 4PE, England. They are also available online at <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

### Intended retail investor:

The Fund is designed primarily for investors seeking capital growth. It should form part of a broader portfolio of investments but may also be suitable as a significant component of an investor's overall portfolio. The Fund is intended for investors with a long term investment horizon and with a preference towards the promotion of environmental characteristics. Investors in the Fund should be prepared to take on a relatively high level of risk of loss to their original capital. For a basic investor, the Fund should be purchased with advice or on an execution only basis.

## What are the risks and what could I get in return?

### Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The summary risk indicator only takes market and credit risk into account. For a full list of the risks materially relevant to the Fund, please see the Prospectus at: <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years			
Investment: EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years			
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	<b>1,340 EUR</b> -86.56%	<b>1,460 EUR</b> -31.96%
<b>Unfavourable<sup>1</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>8,270 EUR</b> -17.26%	<b>9,680 EUR</b> -0.65%
<b>Moderate<sup>2</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>11,240 EUR</b> 12.43%	<b>14,150 EUR</b> 7.19%
<b>Favourable<sup>3</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>14,350 EUR</b> 43.45%	<b>18,620 EUR</b> 13.24%

<sup>1</sup> This type of scenario occurred for an investment between March 2015 and March 2020.

<sup>2</sup> This type of scenario occurred for an investment between March 2014 and March 2019.

<sup>3</sup> This type of scenario occurred for an investment between July 2012 and July 2017.

## What happens if Russell Investments Limited is unable to pay out?

State Street Custodial Services (Ireland) Limited has been appointed as the Fund's depository (the "Depository") and ensures the safekeeping of the Fund's assets, as required by regulation. In the event of the insolvency of Carne, the Fund's assets in the safekeeping of the Depository, will not be affected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss and there is no compensation or guarantee scheme in place to aid in the recovery of this loss. This risk of loss is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Fund. The Depository will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is EUR 10,000.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	51 EUR	345 EUR
<b>Annual cost impact (*)</b>	0.5%	0.5%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.7% before costs and 7.2% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	48 EUR
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 EUR
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	None	0 EUR

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The Fund is designed to be held over the medium to long term.

You can request to take out some or all of your money at any time.

If you sell your shares at an early stage, this will increase the risk of lower investment returns or a loss.

### How can I complain?

If you wish to make a complaint in relation to the Fund, please contact us at:

i. Mail: EMEA Client Service Team, Russell Investments Limited, Rex House, 10 Regent Street, St James, London, SW1Y 4PE, United Kingdom.

ii. Email: [clientservice@russellinvestments.com](mailto:clientservice@russellinvestments.com).

In the event that you are not satisfied with our response to your complaint you can refer the matter to the Irish Financial Services and Pensions Ombudsman by writing to the Financial Services Ombudsman's Bureau at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2, Ireland who may be able to provide an independent assessment of your complaint.

### Other relevant information
