# The Eurozone Equity Fund

Patrick Egan Portfolio Manager

Russell Investments' Global Equity Team comprises over 23 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. The team manages a wide range of U.S., non-U.S developed, emerging market, frontier market, and global equity mandates.

### **Fund Objective**

The Fund aims to achieve long term growth by investing in the equities of a relatively small number of companies in European Union member states which have adopted the Euro as their currency (Eurozone). The Fund is actively managed with reference to the MSCI EMU Index (EUR) - Net Returns (the Index) which it seeks to outperform by 2% over the medium to long term. Russell Investments has full discretion to select investments for the Fund. This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective.

#### **Fund Update**

The Fund underperformed the benchmark in the first quarter. The tilt towards value and away from momentum stocks did not suit the market environment. In sectors, stock selection within industrials (overweight Teleperformance) detracted the most, followed by selection within technology (underweight ASML). However, an underweight to utilities (RWE Aktiengesellschaft) and to L'oreal within consumer staples contributed positively.
