Fund Objective

The Fund aims to achieve long term growth and income by investing worldwide in the equities of property-related companies. Each underlying investment strategy has a complementary investment style, with a focus on property-related companies and trusts. The Fund is actively managed with reference to the FTSE EPRA/NAREIT Developed Real Estate Index (USD) - Net Returns (the Index) which it seeks to outperform by 1.75% over the medium to long term. Russell Investments has full discretion to select investments for the Fund.

Fund Update

The global listed property market, as measured by the FTSE EPRA Nareit Developed Index (Net), advanced during the month. Regionally, North America was the best performer. Asia followed closely, while Europe lagged, ending in negative territory.

In this market environment, the Fund finished in line with the benchmark during the month. Security selection among property stocks in Europe was a bright spot in the portfolio. Selection within the US mall and health care sectors was beneficial, while stock selection among net lease and lodging detracted from performance.
