**Gerard Fitzpatrick**  
Portfolio Manager

Russell Investments' Global Fixed Income Team comprises over 9 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. The team manages cash and multi-strategy fixed income portfolios, which include global, regional, investment grade, high yield, emerging market debt and absolute return mandates.

## Fund Objective

The Fund aims to achieve long term income and growth on your investment by investing in the bonds of issuers in emerging markets (developing countries). The Fund is actively managed with reference to the JP-Morgan GBI-EM Global Diversified (USD) Index (the Index) which it seeks to outperform by 1% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund

## Fund Update

The Fund is dynamically managed in alignment with our cycle, valuation, sentiment framework as well as to take advantage of tactical opportunities within each manager's excess return cycle. We believe the variety of the local debt markets makes investing in Emerging Market Debt an attractive complement to other fixed income and equity exposures. We have chosen managers for the Fund which are high conviction research picks who have complementary characteristics; one has a 'Value Driven' investment process while the other is more 'Fundamental' in their approach.
