Fund Objective

The Fund aims to achieve income and growth by investing at least 70% of its assets in Euro-denominated bonds. The Fund is broadly diversified across European countries (as well as non-E.U.), across industry sectors and maturities. The Fund is actively managed with reference to the FTSE Euro Broad Investment-Grade Bond Index which it seeks to outperform by 0.5% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund.

Fund Update

The Fund is dynamically managed in alignment with our cycle, valuation, sentiment (CVS) framework. The Fund holds an overweight to duration. The Fund is also overweight investment grade and high yield financials, industrials and utilities. We believe bonds with credit risk will generate higher returns than those of comparable high-quality government securities over a market cycle. Both sets of Russell Investments positioning strategies continue to play a key role in diversifying the Fund's return profile.
