Fund Update

Returns shown in GBP

The Fund underperformed. Emerging Markets outperformed developed markets in a positive period for China (including Tencent) and Taiwan (driven by semiconductor giant TSMC). Similar to the first quarter, the Fund's exposure to momentum was positive. However, negative selection within China (underweight Tencent) was a key detractor. An overweight to Brazil – one of the weakest-performing countries this quarter – and an underweight to Taiwan (TSMC) also weighed on returns. Strong selection within South Korea and an underweight to Saudi Arabia were positive contributors.
