

Russell Investments Global Bond Fund

Gerard Fitzpatrick
Portfolio Manager

Russell Investments' Global Fixed Income Team comprises over 9 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. The team manages cash and multi-strategy fixed income portfolios, which include global, regional, investment grade, high yield, emerging market debt and absolute return mandates.

Fund Objective

The Fund aims to achieve income and growth by investing at least 70% of its assets worldwide in bonds, and debt instruments, including mortgage and asset backed securities. The Fund is actively managed with reference to the Bloomberg Global Aggregate Index (USD) - Total Returns (the Index) which it seeks to outperform by 1% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund. This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective.

Fund Update

The Fund outperformed the benchmark return. Rates positioning was positive with overweight exposure to US Treasuries, particularly 10-year issues, a significant contributor to returns. An overweight to rates in Mexico and an underweight to Japanese rates was also effective. However, an underweight to rates in Canada was unhelpful. Currency allocations were negative on aggregate. Underweight exposure to the euro, Swiss franc, Swedish krona and Australian dollar detracted while overweights to the US dollar, Norwegian krone, Turkish lira and New Zealand dollar were additive. Allocations to credit helped modestly due to overweights to investment grade (financials, industrials) in Europe and overweights to high yield and investment grade financials in the US. Exposure to hard currency emerging market debt was also rewarded due to overweight exposure to Europe.
