

Russell Investments Global Bond Fund

Gerard Fitzpatrick
Portfolio Manager

Russell Investments' Global Fixed Income Team comprises over 9 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. The team manages cash and multi-strategy fixed income portfolios, which include global, regional, investment grade, high yield, emerging market debt and absolute return mandates.

Fund Objective

The Fund aims to achieve income and growth by investing at least 70% of its assets worldwide in bonds, and debt instruments, including mortgage and asset backed securities. The Fund is actively managed with reference to the Bloomberg Global Aggregate Index (USD) - Total Returns (the Index) which it seeks to outperform by 1% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund. This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective.

Fund Update

The Fund performed in line with the benchmark. Rates positioning was positive, benefitting from overweights to US Treasuries (two and 10-year issues), UK gilts and Mexican rates. An underweight to Japanese rates also helped. Currency allocations were negative due to positioning in the Chinese yuan and underweights to the Swiss franc and euro. However, overweights to the US dollar, Turkish lira and Mexican peso were effective. Credit allocations were positive, helped by an overweight to European investment grade financials. In US credit, the positive impact from an underweight to investment grade industrials was offset by an overweight to high yield industrials. Allocations to hard currency emerging market debt were rewarded, mainly due to exposure to Europe. Elsewhere, positioning in sovereign debt in Italy, France and Spain detracted.
