

Russell Investments Global Credit Fund

Gerard Fitzpatrick
Portfolio Manager

Russell Investments' Global Fixed Income Team comprises over 9 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. The team manages cash and multi-strategy fixed income portfolios, which include global, regional, investment grade, high yield, emerging market debt and absolute return mandates.

Fund Objective

The Fund aims to achieve income and growth by investing at least 70% of its assets worldwide in bonds, and debt instruments, including mortgage and asset backed securities. The Fund is actively managed with reference to the Bloomberg Global Aggregate Credit Index (USD) - Total Returns (the Index) which it seeks to outperform by 0.75% over the medium to long term. Russell Investments/Money Managers have full discretion to select investments for the Fund. This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective

Fund Update

The Fund underperformed the benchmark return over the month. Credit positioning was positive, helped by an overweight to investment grade financials in Europe. In US credit, an underweight to investment grade contributed positively while an overweight to high yield industrials detracted. Underweight exposure to investment grade hard currency emerging market debt was beneficial, particularly in the Middle East. Elsewhere, in sovereign debt an underweight to Spain was ineffective. In currencies, underweights to the Swiss franc and Japanese yen detracted while overweights to the US dollar and New Zealand dollar were positive. Rates allocations were modestly helpful, largely due to an overweight to German bunds. However, positioning in US Treasuries was unrewarded, albeit overweights to two and 10-year issues were effective.
