

# Russell Investments Multi-Asset Growth Strategy Euro Fund

**Alain Zeitouni**  
Portfolio Manager

Russell Investments' Multi-Asset Strategies Team comprises over 23 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe. This team focuses on total client outcomes, including all major asset classes in their solutions. They identify areas of the market offering attractive valuations and growth potential with a reasonable level of risk and research strategies and managers to exploit these pockets of value.

## Fund Objective

The Fund aims to achieve long-term growth by investing worldwide in securities including equities, investments similar to equities, and bonds and other debt instruments either directly or indirectly through other regulated collective investment schemes. The Fund is actively managed with the aim to achieve a total return of 4% over the reference rate of the Harmonised Index of Consumer Prices (HICP). Russell Investments and/or the money managers may manage a portion of the assets within the Fund with reference to a specific benchmark.

## Fund Update

The Fund is dynamically managed in alignment with our cycle, valuation, sentiment (CVS) framework to take advantage of tactical opportunities within asset classes. The Fund holds exposure to both global and emerging market equities. Within fixed income, the Fund holds exposure to investment grade and high yield credit. Additionally, the Fund retains allocations to government bonds and defensive currency exposure to serve as a counterweight during potential periods of market distress. We also use option strategies to benefit from drawdown protection. Diversified real assets exposure includes allocations to real estate, commodities and physical gold.

## Performance Review %
