Fund Facts

Series Inception Date : 12/20/2011

MER : 1.61%

Total Fund Assets : \$93.94 M

Effective Duration : 5.79 years

Yield to Maturity : 5.76%

As of March 31, 2024. Management expense ratio (MER) is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

The expected rate of return on a bond if it is held until maturity based on its current market price. It is not a measure of historical yield or the income received by an investor. Investment management fees, expenses and taxes are not included in this calculation that would have decreased the yield shown.

Fund Objective

Russell Investments Fixed Income Plus Pool (the Fund) aims to provide income primarily through exposure to Canadian and foreign fixed income investments.

Investment Strategy

To achieve its objective, the Fund invests primarily in Underlying Funds.

Important Information

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of returns are the historical annual compounded total returns including changes in unit/share value and reinvestment of all dividends or distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual Funds are not guaranteed, their values change frequently and past performance may not be repeated.

As with all mutual funds, investment in this mutual fund contains risks that may make it unsuitable for investors, depending on their investment objectives and risk tolerance. If the fund does not perform as intended, an investor may experience a loss of part or all of their principal invested. Please read the prospectus of this fund for a detailed description of the risks involved in this investment.

Diversification and strategic asset allocation do not assure a profit or protect against loss in declining markets.
