As of March 31, 2024. Management expense ratio (MER) is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

Reflects the annual rate at which dividends are being paid. It is the weighted average of each stock's annual dividend rate (including any one time special dividends) divided by the price of the stock as of November 30, 2024.

Investment management fees, expenses and taxes are not included in this calculation that would have decreased the yield shown. Dividend yields can change based on the performance of underlying stocks.

Std. dev. = standard deviation. For definition of terms please visit

Fund Objective

To provide long-term growth of capital and current income primarily through exposure to equity and fixed-income securities issued by companies that are involved in, or indirectly benefit from, the development, maintenance, servicing or management of infrastructures.

Investment Strategy

Russell Investments Global Infrastructure Pool (The Fund) principally invests in equity securities, including common stock of infrastructure companies economically tied to a number of countries around the world in a globally diversified manner.

Performance Review

Annual Returns

All Performance shown is for the ETF Series and calculated using the ETF Series net asset value after expenses have been deducted. These expenses reduce the return of the ETF Series. ETF Series trade like stocks, fluctuate in market value and may trade at prices above or below their net asset value. Annual returns are calendar year returns for the last ten years or since inception if the Fund has less than ten years of history. Performance is annualized except for periods of less than one year.

Important Information

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of returns are the historical annual compounded total returns including changes in unit/share value and reinvestment of all dividends or distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual Funds are not guaranteed, their values change frequently and past performance may not be repeated.

Although exchange-traded series of mutual funds ("ETF Series") will be listed on the TSX or another exchange or marketplace, there can be no assurance that an active public market for ETF Series will develop or be sustained. Trading of ETF Series on certain marketplaces may be halted under certain circumstances. There can be no assurance that ETF Series will trade at prices that reflect their net asset value per security. The trading price of ETF Series will fluctuate. For more information on risks associated with investing in ETF Series, please read the prospectus before investing. As with all mutual funds, investment in this mutual fund contains risks that may make it unsuitable for investors, depending on their investment objectives and risk tolerance. If the fund does not perform as intended, an investor may experience a loss of part or all of their principal invested. Please read the prospectus of this fund for a detailed description of the risks involved in this investment.
