Fund Objective

To provide exposure to a diversified portfolio of asset classes that are directly or indirectly linked to physical assets, or to assets that the investment manager of the fund believes have a tendency to maintain their real (after inflation) value over time. The Fund invests in or gains exposure to primarily equity securities, fixed-income securities, permitted commodities and securities of other mutual funds.

Investment strategy

Russell Investments Real Assets (The Fund) invests in Underlying Funds and may invest in, or obtain exposure to, other investment products and strategies. The Fund invests in the following asset classes: global infrastructure, global real estate, fixed income and commodities.

Important Information

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of returns are the historical annual compounded total returns including changes in unit/share value and reinvestment of all dividends or distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual Funds are not guaranteed, their values change frequently and past performance may not be repeated.

As with all mutual funds, investment in this mutual fund contains risks that may make it unsuitable for investors, depending on their investment objectives and risk tolerance. If the fund does not perform as intended, an investor may experience a loss of part or all of their principal invested. Please read the prospectus of this fund for a detailed description of the risks involved in this investment.
