

# WE WORK WITH SOME OF THE WORLD'S LEADING INVESTMENT MANAGERS TO HELP YOU ACHIEVE YOUR GOALS.

OUR MULTI-MANAGER APPROACH PUTS SPECIALIZED EXPERTS TO WORK FOR YOU.

At Russell Investments, we believe that an effective investment portfolio is built from the best global strategies.

To capture the best, it helps to spread the net wide. Our approach involves researching investment strategies from around the world, and evaluating their **people, processes** and investment **philosophy**. Using these precise insights can help determine the best combination of active managers and investment styles in an overall portfolio. Each strategy is chosen to serve a specific purpose.

It can be exceptionally difficult for an individual manager to be effective in more than one asset class or produce stable performance under various market environments. We believe that opting for specialists who excel in their fields can provide better risk-adjusted returns.

## Consider this illustration from the 2021 Tokyo Olympics

While they are strong athletes, the difference in the performance of the gold medal-winning decathlon champion compared to the individual specialist for each event is obvious.

Why should investing be any different? While a generalist investment manager who can provide exposure to different markets may give you a good return, finding the best individual performer in each of those markets may provide a much better return with lower risk. And, just as in the athletic sphere, those individual champions can easily change from year to year. Russell Investments attempts to find the next global champions through carefully monitoring a large number of investment managers.

### Specialists outperform generalists

### The potential benefits of Russell Investments multi-manager products:

- **Diversification.** You get access to a full spectrum of specialist active managers, reducing reliance on the success of a single investment manager or style.
- **Security selection.** You may gather the full benefit of strong security selection from specialists in their area.
- **Economies of scale.** Pooling multiple managers into a single product may allow you to benefit from an efficient structure and a lower fee than if you invested in a variety of specialist funds.
- **Wider expertise.** You get access to investment strategies that you may not be aware of or that are generally only available to institutional investors.
- **Manager screening and monitoring.** Russell Investments will manage the relationship with the investment managers, keep track of their activities and conduct ongoing due diligence. We hold more than 1,800 meetings\* a year with investment managers.
- **Enhanced Portfolio Implementation.** Russell Investments combines all investment insights into one centrally-managed portfolio, in an attempt to increase efficiency and lower costs.

**Leading investment managers** / The search for the world’s leading investment managers starts with, well, nearly all of them.

As at December 31, 2023 unless otherwise stated. Data reflects Russell Investments globally. The 'hire' rating is the highest rating given to investment managers based on Russell Investments manager research process.

#### IMPORTANT RISK DISCLOSURES

Diversification does not assure a profit or guarantee against loss in declining markets. Please remember that all investments carry some level of risk.

***Fund objectives, risks, charges, and expenses should be carefully considered before investing. A summary prospectus, or a prospectus, containing this and other important information can be obtained by calling 800-787-7354 or by visiting russellinvestments.com. Please read a prospectus carefully before investing.***

The investment styles employed by a Fund’s money managers may not be complementary. This concentration may be beneficial or detrimental to a Fund’s performance depending upon the performance of those securities and the overall economic environment. The multi-manager approach could increase a Fund’s portfolio turnover rates which may result in higher levels of realized capital gains or losses with respect to a Fund’s portfolio securities, higher brokerage commissions and other transaction costs.
