DISCLOSURES

Personalized Small/Mid Cap SMA is a product of Russell Investment Management, LLC ("RIM") and offered through RIM's Personalized Managed Accounts ("PMA") program. It represents a composite of model portfolios provided by RIM, in which each composite reflects model portfolios of RIM and third-party investment advisors selected by RIM. When the model is implemented, PMA is a separately managed account program of individually owned securities that can be tailored to meet investor's investment objectives. RIM partners with third-party money managers to offer diversified, single or multi-asset managed accounts that can be customized to the investor's investment objectives, circumstances and preferences, such as (but not limited to), market exposure, risk management, tax management, environmental, social and governance considerations, and return objectives. Excluding any allocations to pooled investment vehicles, if any, each investor's account is managed separately from other investor accounts, allowing for a personalized experience to deliver unique investment outcomes.

Diversification and strategic asset allocation do not assure a profit or guarantee against loss in declining markets. Please remember that all investments carry some level of risk. There are no assurances that the objectives stated in this material will be met. Investment in one or more separately managed accounts is not a complete investment program and involves risk; principal loss is possible. The principal value of the account is not guaranteed at any time.

The decision to use PMA in investors' portfolios and related investment advice are provided through financial advisors and other financial intermediaries that are independent of RIM and its affiliates. Investors should consult their financial advisor to determine which services and programs are appropriate to meet their investment objectives.

Nothing contained in this material is intended to constitute legal, tax, securities or investment advice, nor an opinion regarding the appropriateness of any investment. The general information contained in this publication should not be acted upon without obtaining specific legal, tax and investment advice from a licensed professional.

The Russell 2500™ Index measures the performance of the 2,500 smallest companies in the Russell 3000® Index, representative of the U.S. small to medium small capitalization securities market. Small capitalization (small cap) investments generally involve stocks of companies with a market capitalization based on the Russell 2000® Index. Investments in small cap, micro cap, and companies with capitalization smaller than the Russell 2000® Index are subject to the risks of common stocks, including the risks of investing in securities of large and medium capitalization companies. Investments in smaller capitalization companies may involve greater risks as, generally, the smaller the company size, the greater these risks. In addition, micro capitalization companies and companies with capitalization smaller than the Russell 2000® Index may

be newly formed with more limited track records and less publicly available information.
